COPYSTAKE ADMIN PANEL GUIDE

About CopyStake

CopyStake is a Trueplay's live streaming feature that enables you to invite popular streamers and hold live gaming sessions right on your website.

It provides players with the opportunity to automatically replicate the streamer's bets, sharing all the wins and losses.

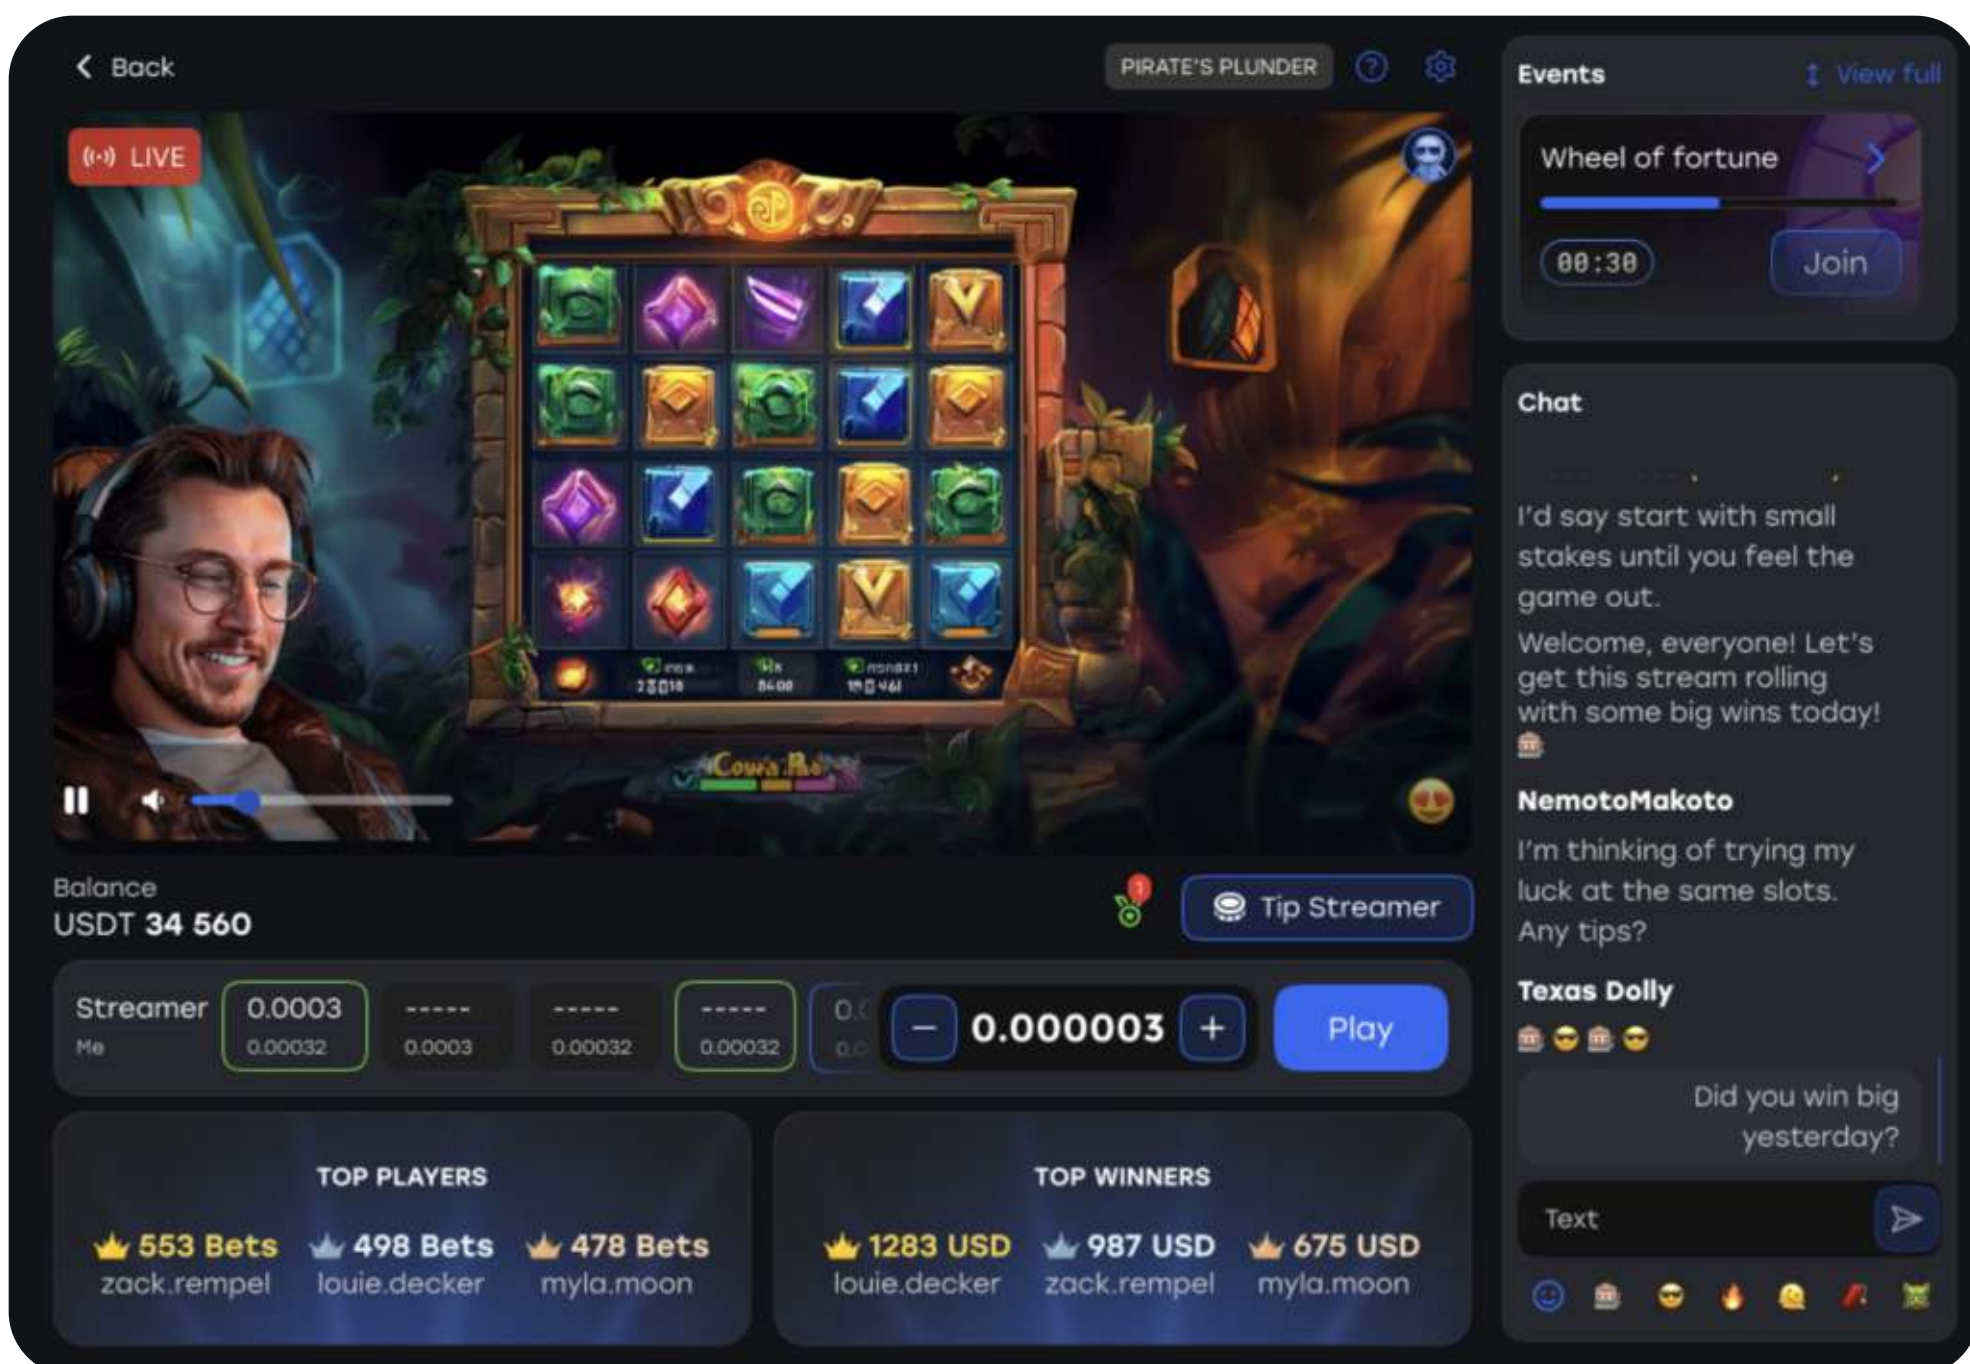

Additionally, collaboration with streamers can attract a larger audience to online casinos, increasing their visibility and potential customer base.

You can work with the same streamers, but now they can integrate into your platform and interact with players in a new, trending way.

Introduction

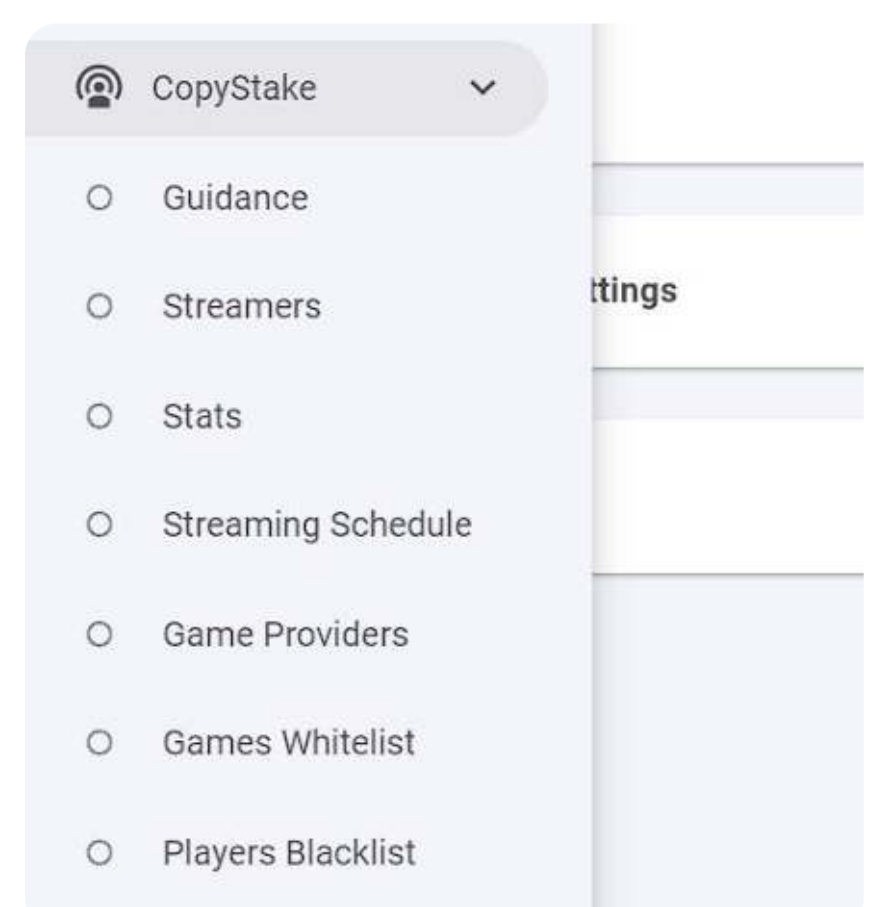

You are about to elevate player engagement to new heights with livestreams! But there's one thing we need to do before running the first stream on the platform: learn how to use the CopyStake Admin Panel.

CopyStake menu overview

Hover your mouse over the left side of the screen, and you'll see the vertical navigation bar.

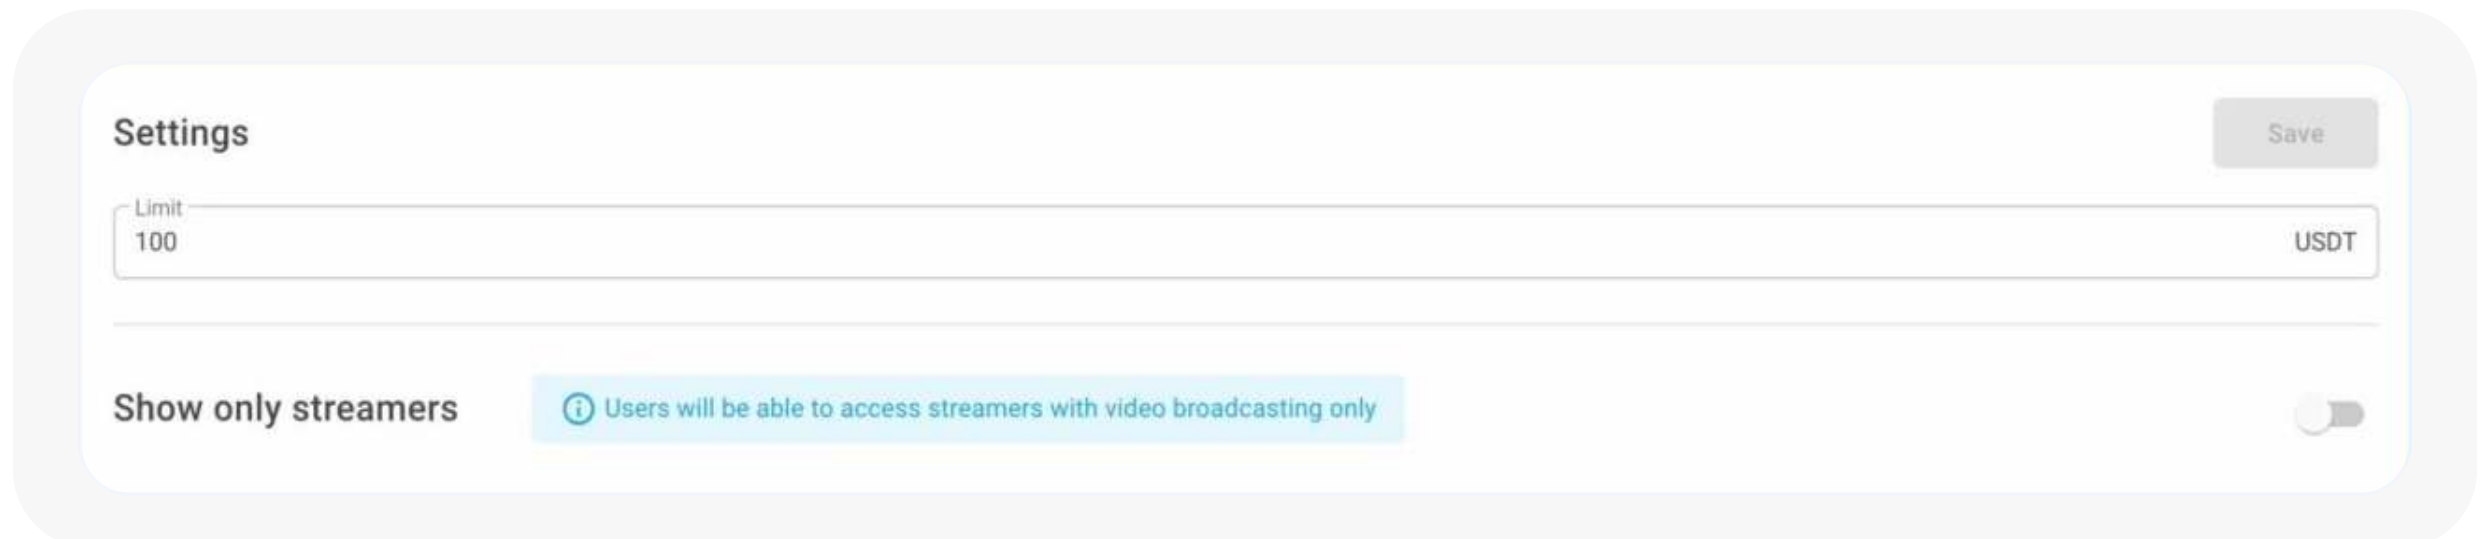

Click on the CopyStake title to open a dropdown menu with dedicated tabs. We'll focus on the ones you'll use most often: **Streamers**, **Stats**, **Streaming Schedule**, **Games Whitelist** and **Players Blacklist**, and **Gamification Center**.

Streamers

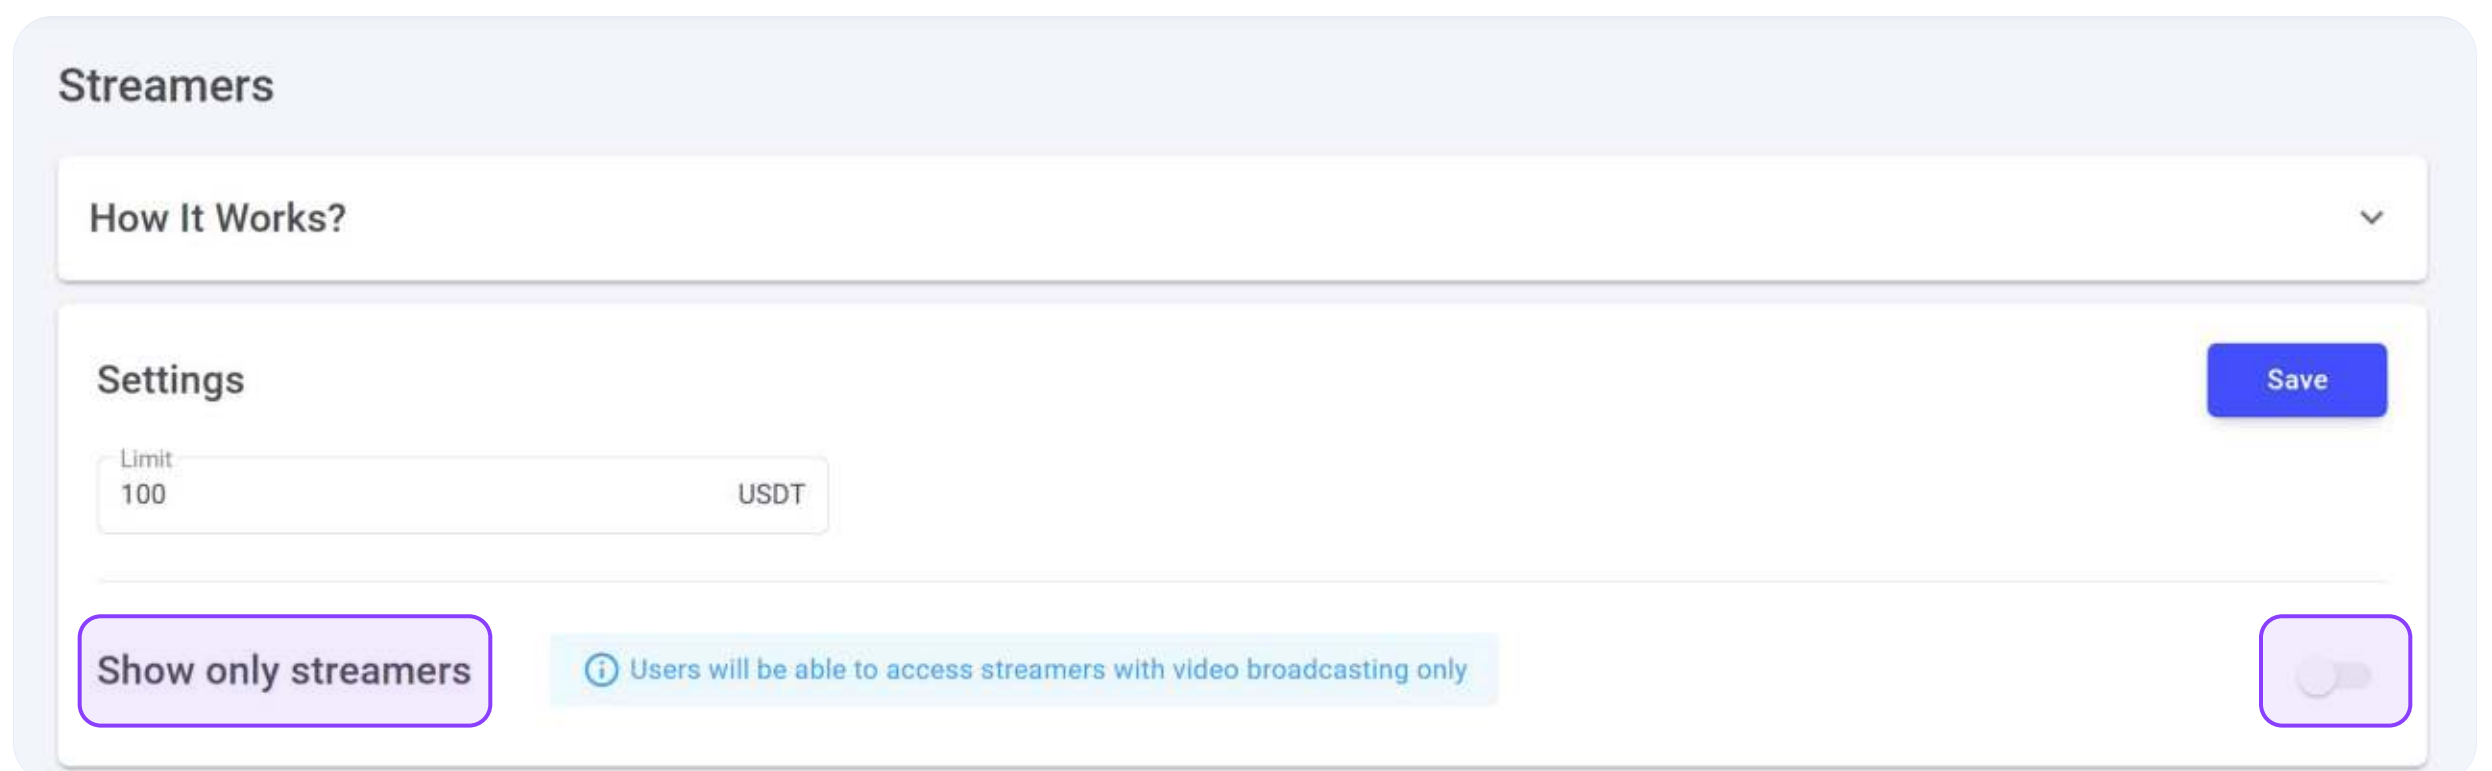

Limit for a maximum bet

In the **Settings** submenu, you can set the limit for a maximum bet in **USDT**. The limit will be displayed on the broadcast page. Customers with a different currency will see the equivalent of the maximum bet in their currency, calculated based on the current exchange rate.

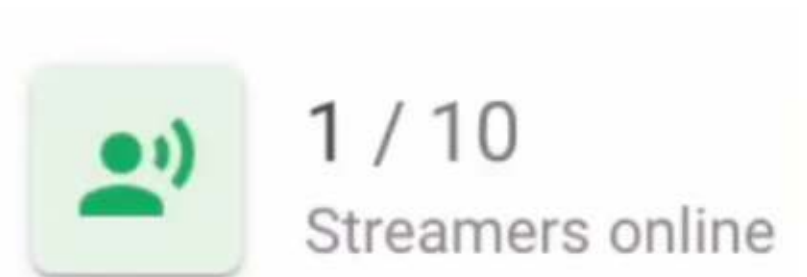

Show only streamers

Next, we have the **Show only streamers** toggle button. However, we recommend making regular players visible in the CopyStake lobby to let them copy each other's bets, too.

Streamers online

The number on the left of the slash indicates how many streamers are currently live. The number following the slash represents the maximum number of streamers allowed to broadcast simultaneously based on your agreement with Trueplay.

Watchers online

You can also see how many people are watching CopyStake streams at the moment.

Streamer information and settings

The table provides detailed information about each streamer on your platform, including the date they were added, their wallet address, **user ID**, **nickname**, and **channel ID**, indicating if they are currently online or offline.

Show only streamers Users will be able to access streamers with video broadcasting only

1 / 10 Streamers online 1 / 3000 Watchers online Add Streamer +

Manage Broadcast

Play

With this control, you can permit a streamer to start broadcasts or restrict them from doing so in case they break a rule.

Type

Public

The column shows whether the channel a streamer works at is public or private, available only for users with an access code.

Language

English

Here, you can specify the streamer's language.

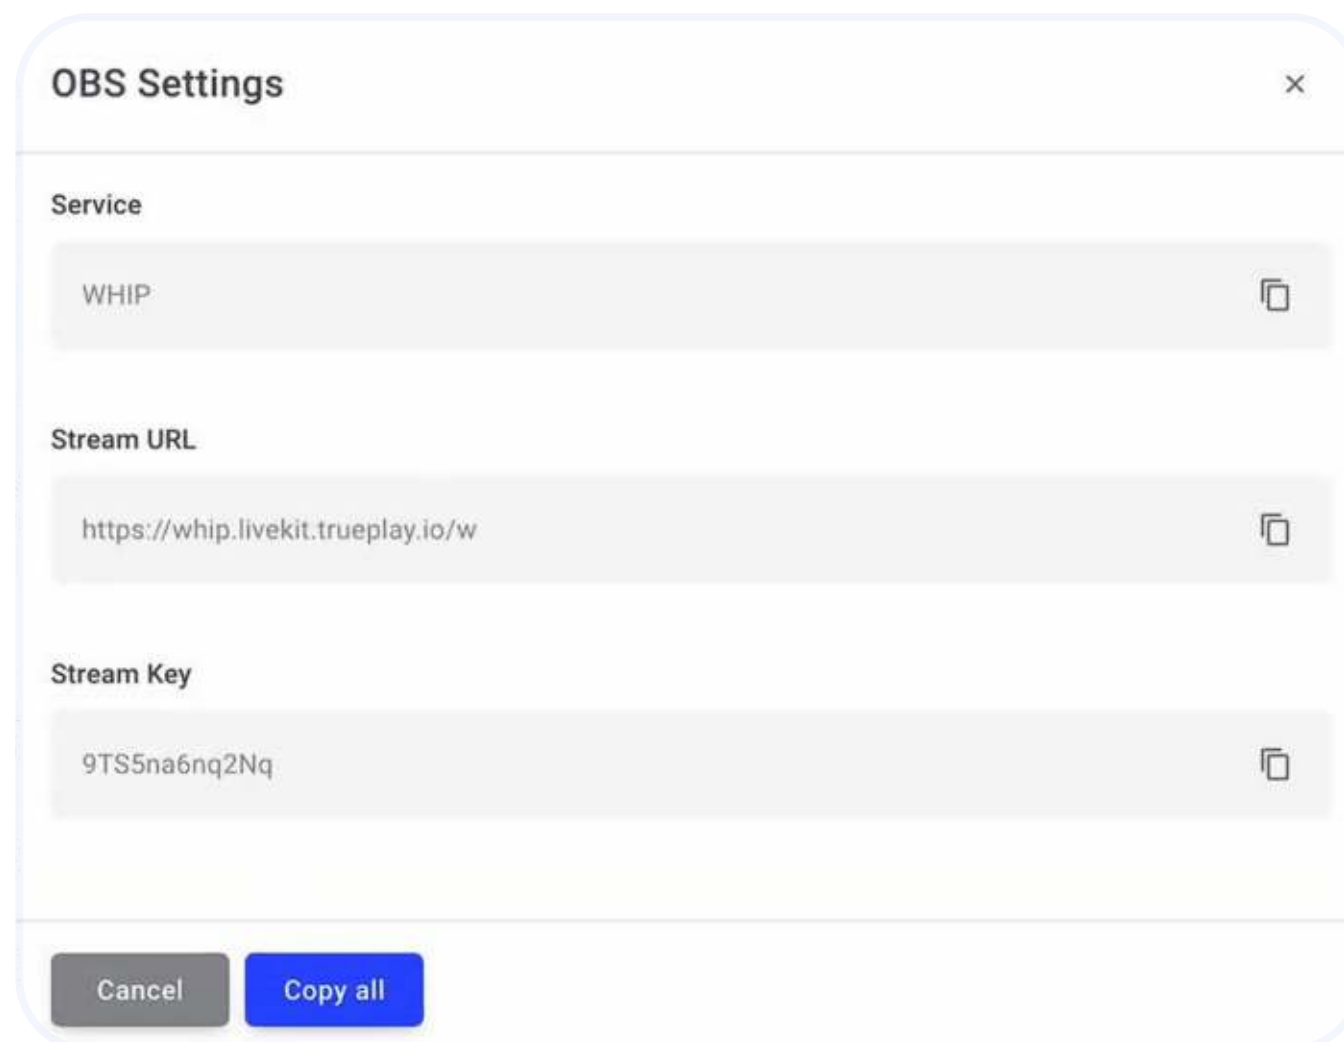

Thumbnail

We suggest you upload a cover for each streamer to make the CopyStake lobby look as attractive as possible.

OBS settings

By clicking on the **OBS settings** icon, you open a window with information (**a protocol, a stream URL, and a stream key**) that streamers must insert into an OBS program to start going live.

Removing a streamer from the list

Deleting a streamer from the list is done by hovering over the **garbage bin** icon and pressing it.

Editing information and settings

You can customize the above-mentioned details and settings by clicking on the edit icon.

Please learn our **OBS Studio guide** to manage the stream configuration

[Read the guide](#)

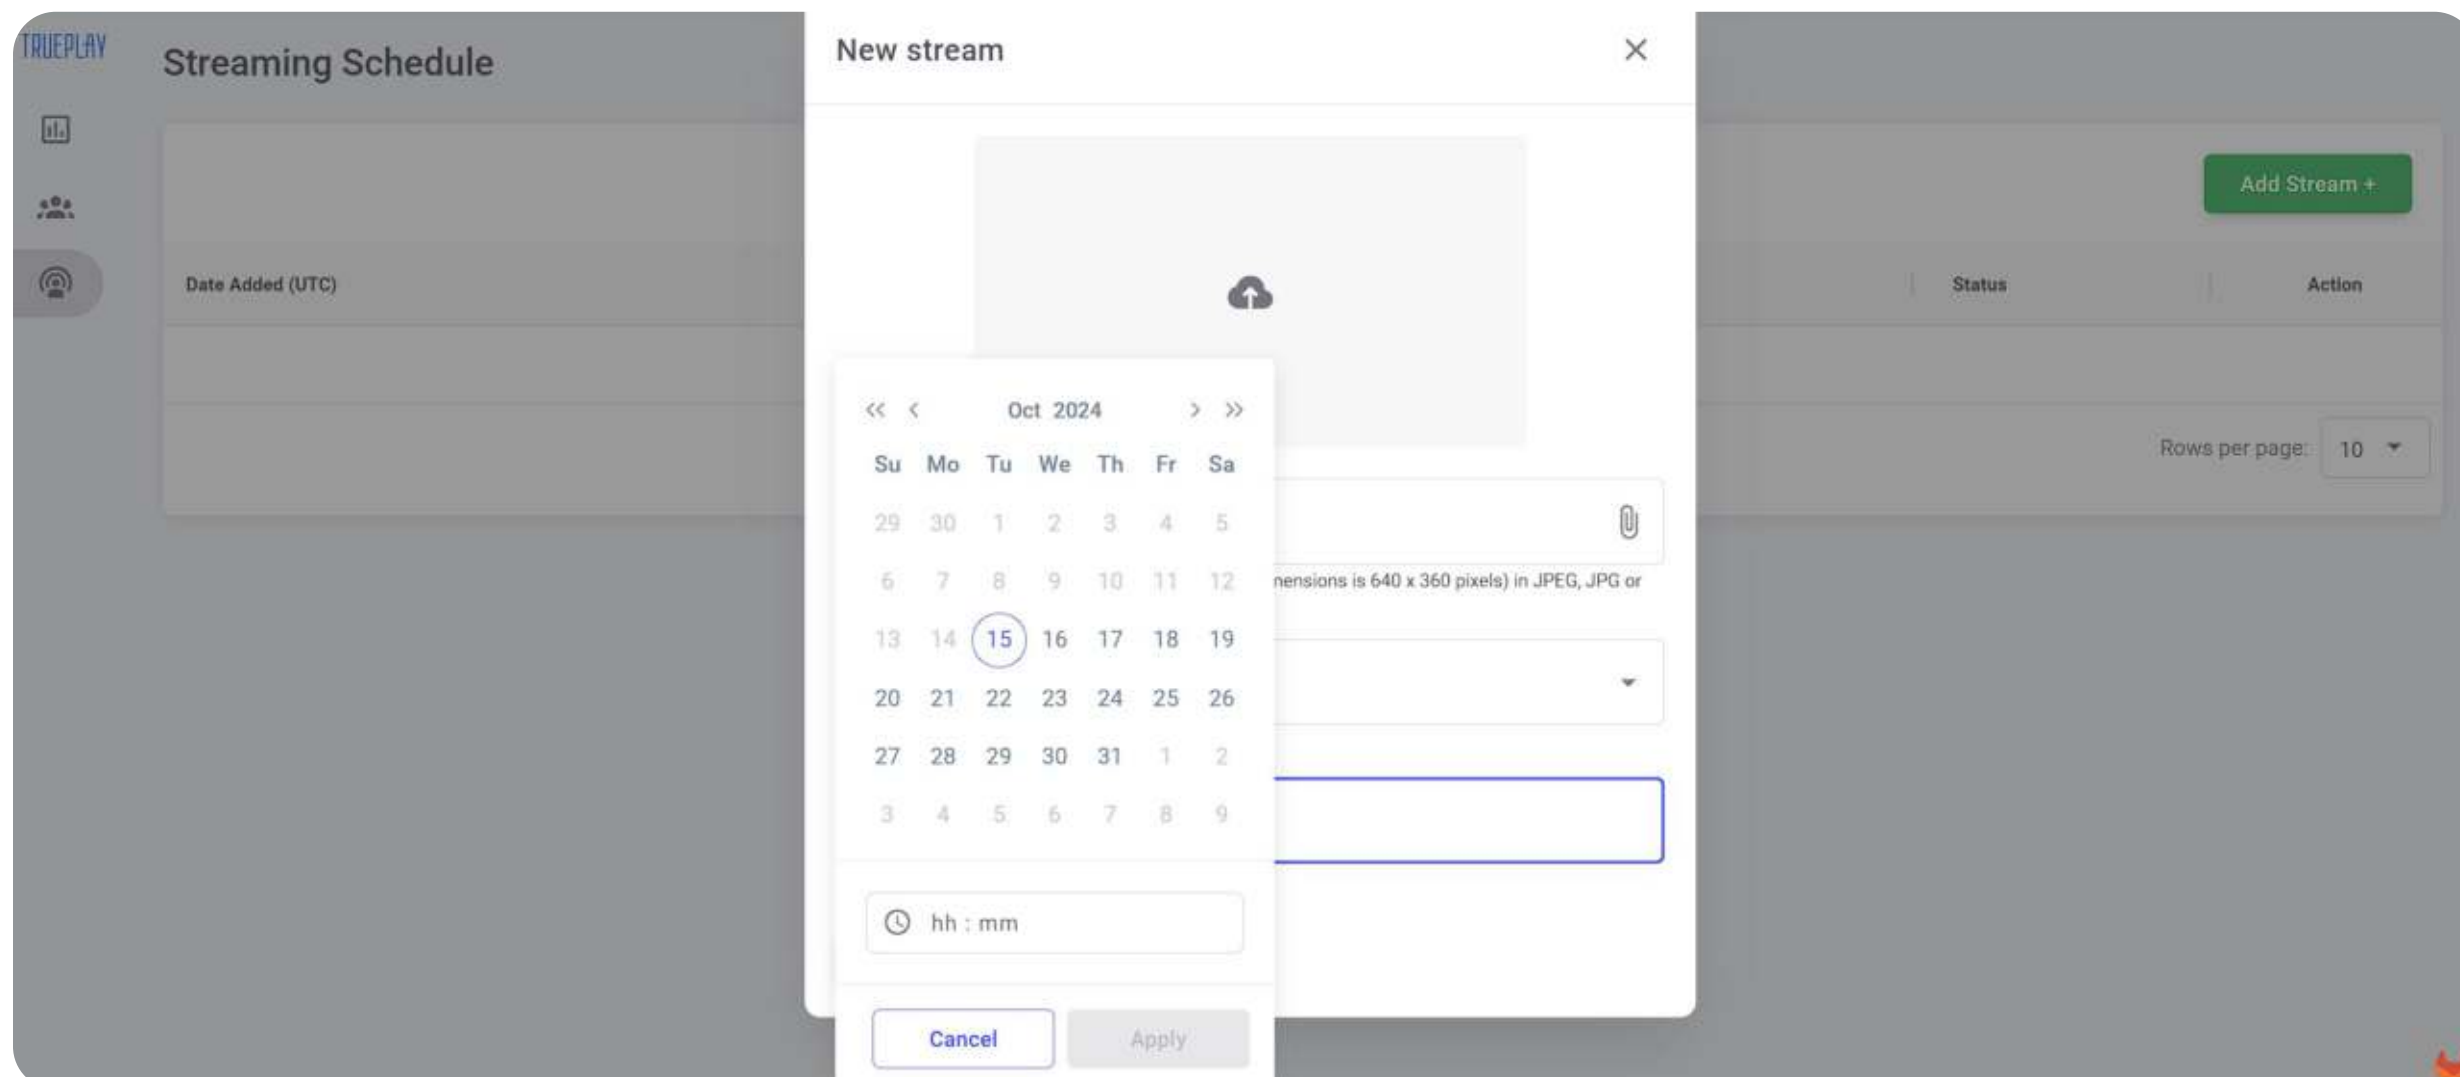

Stats

CopyStake Stats shows your **GGR** for a specified period.

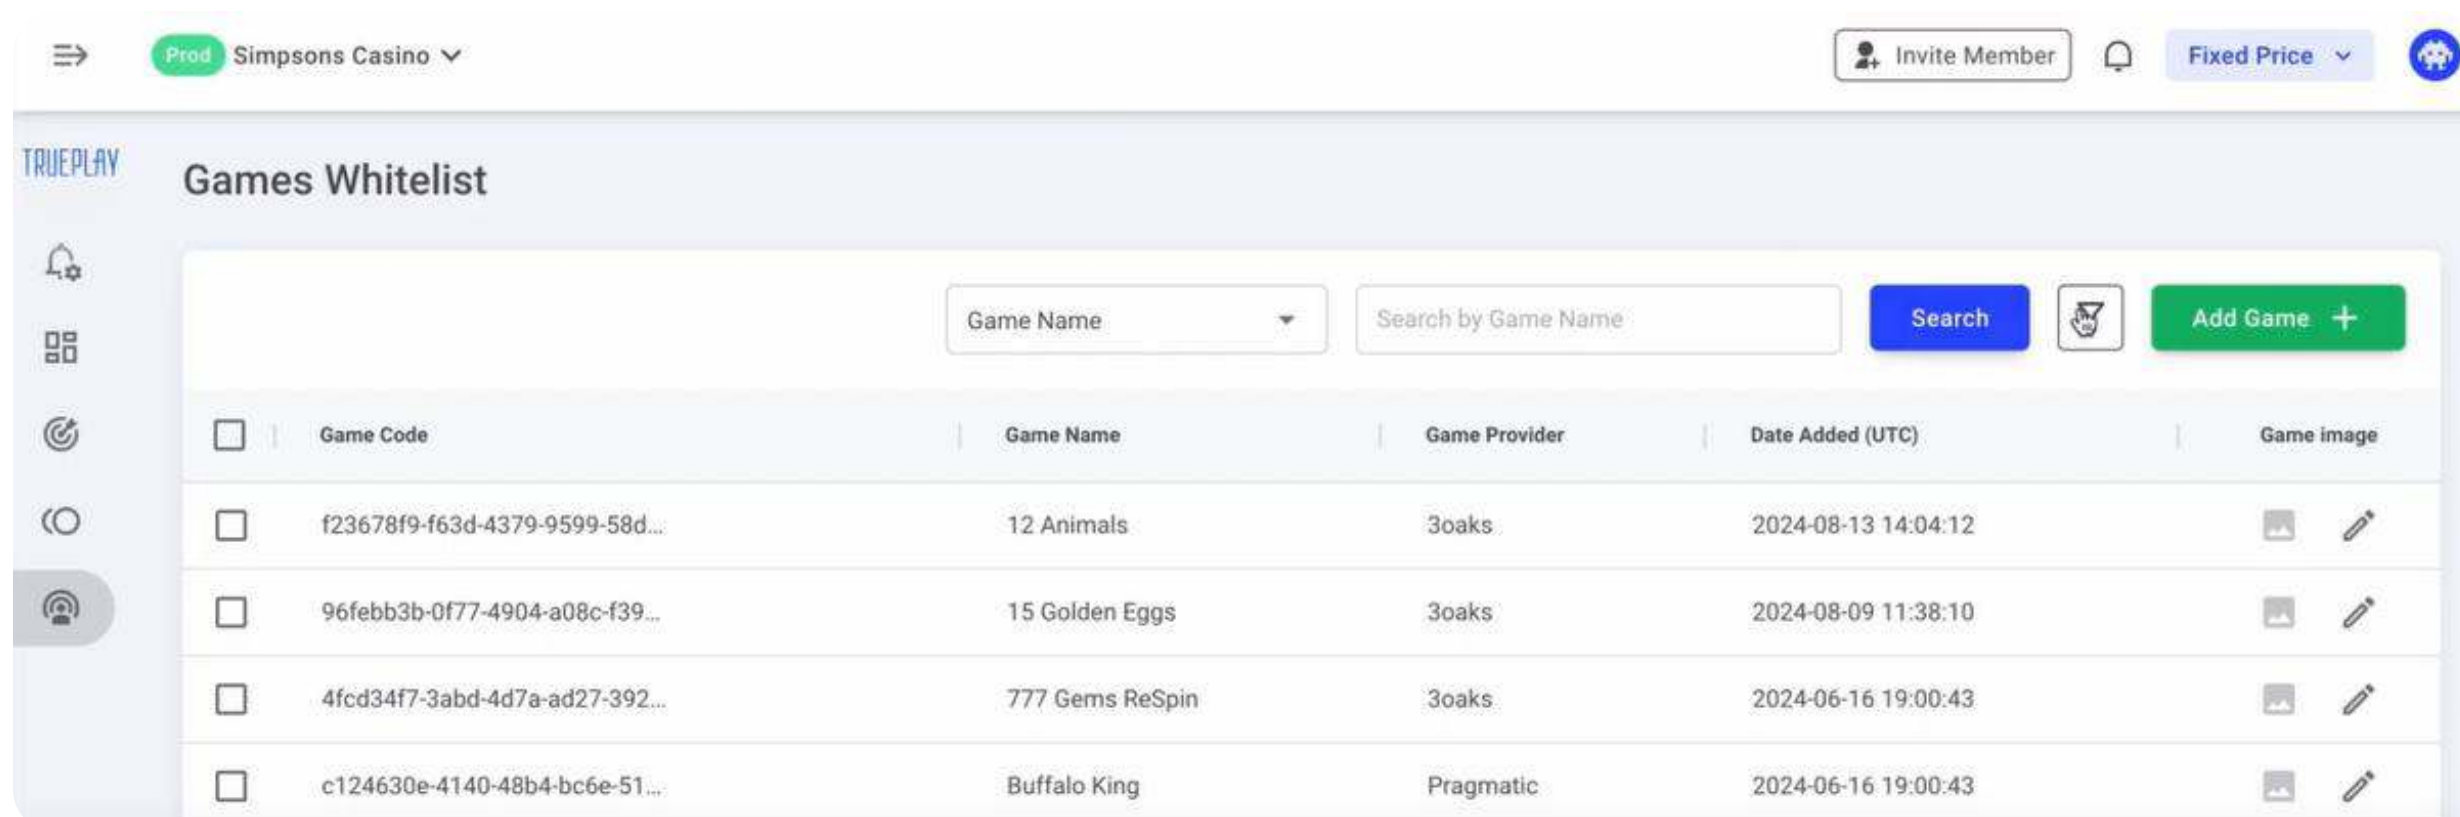

Streaming Schedule

You can specify when a streamer will be online. This information will appear in the lobby.

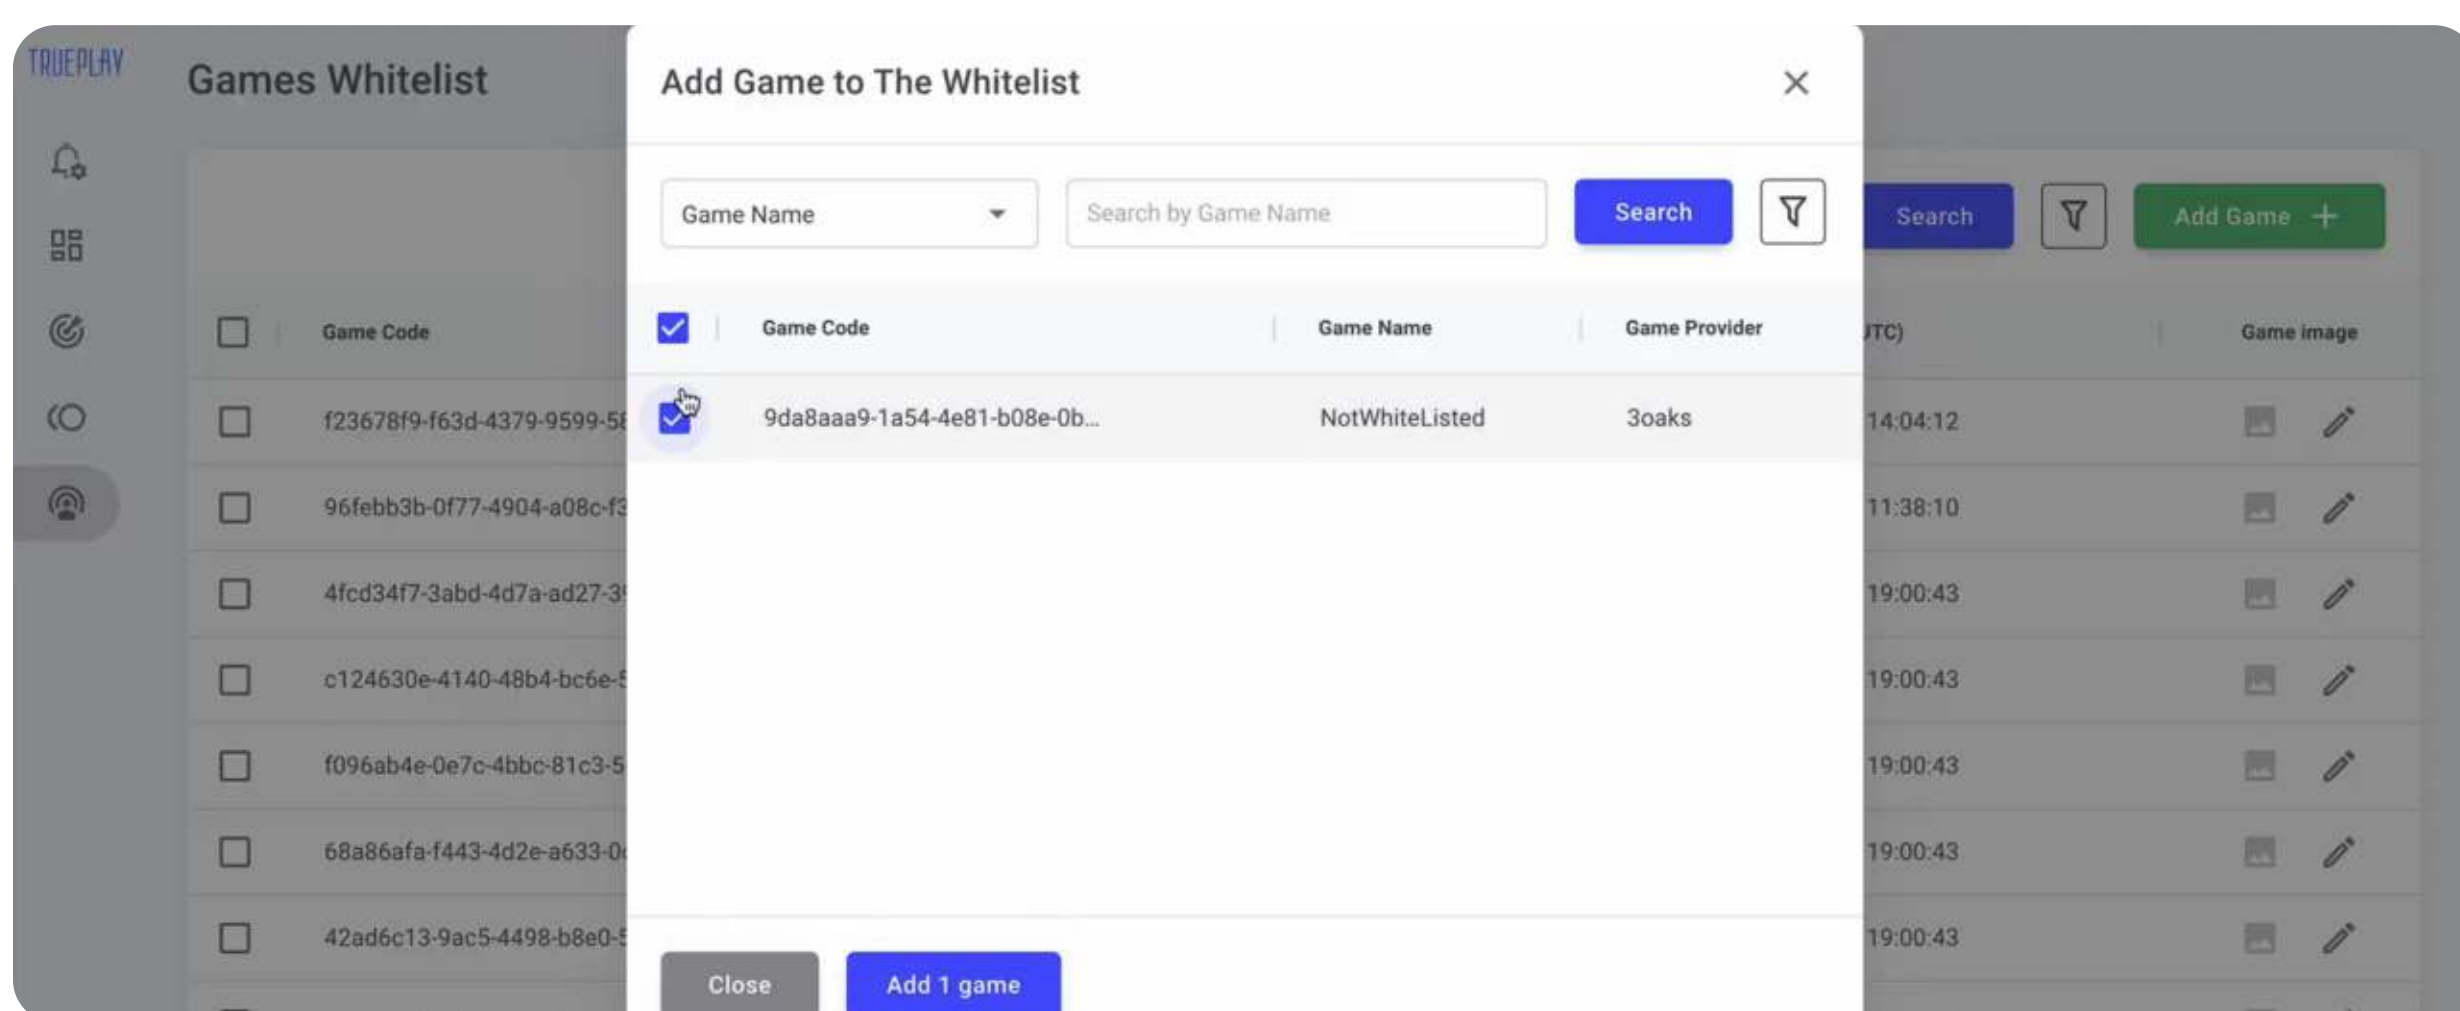

Games Whitelist

This tab is designed for managing CopyStake-supported games.

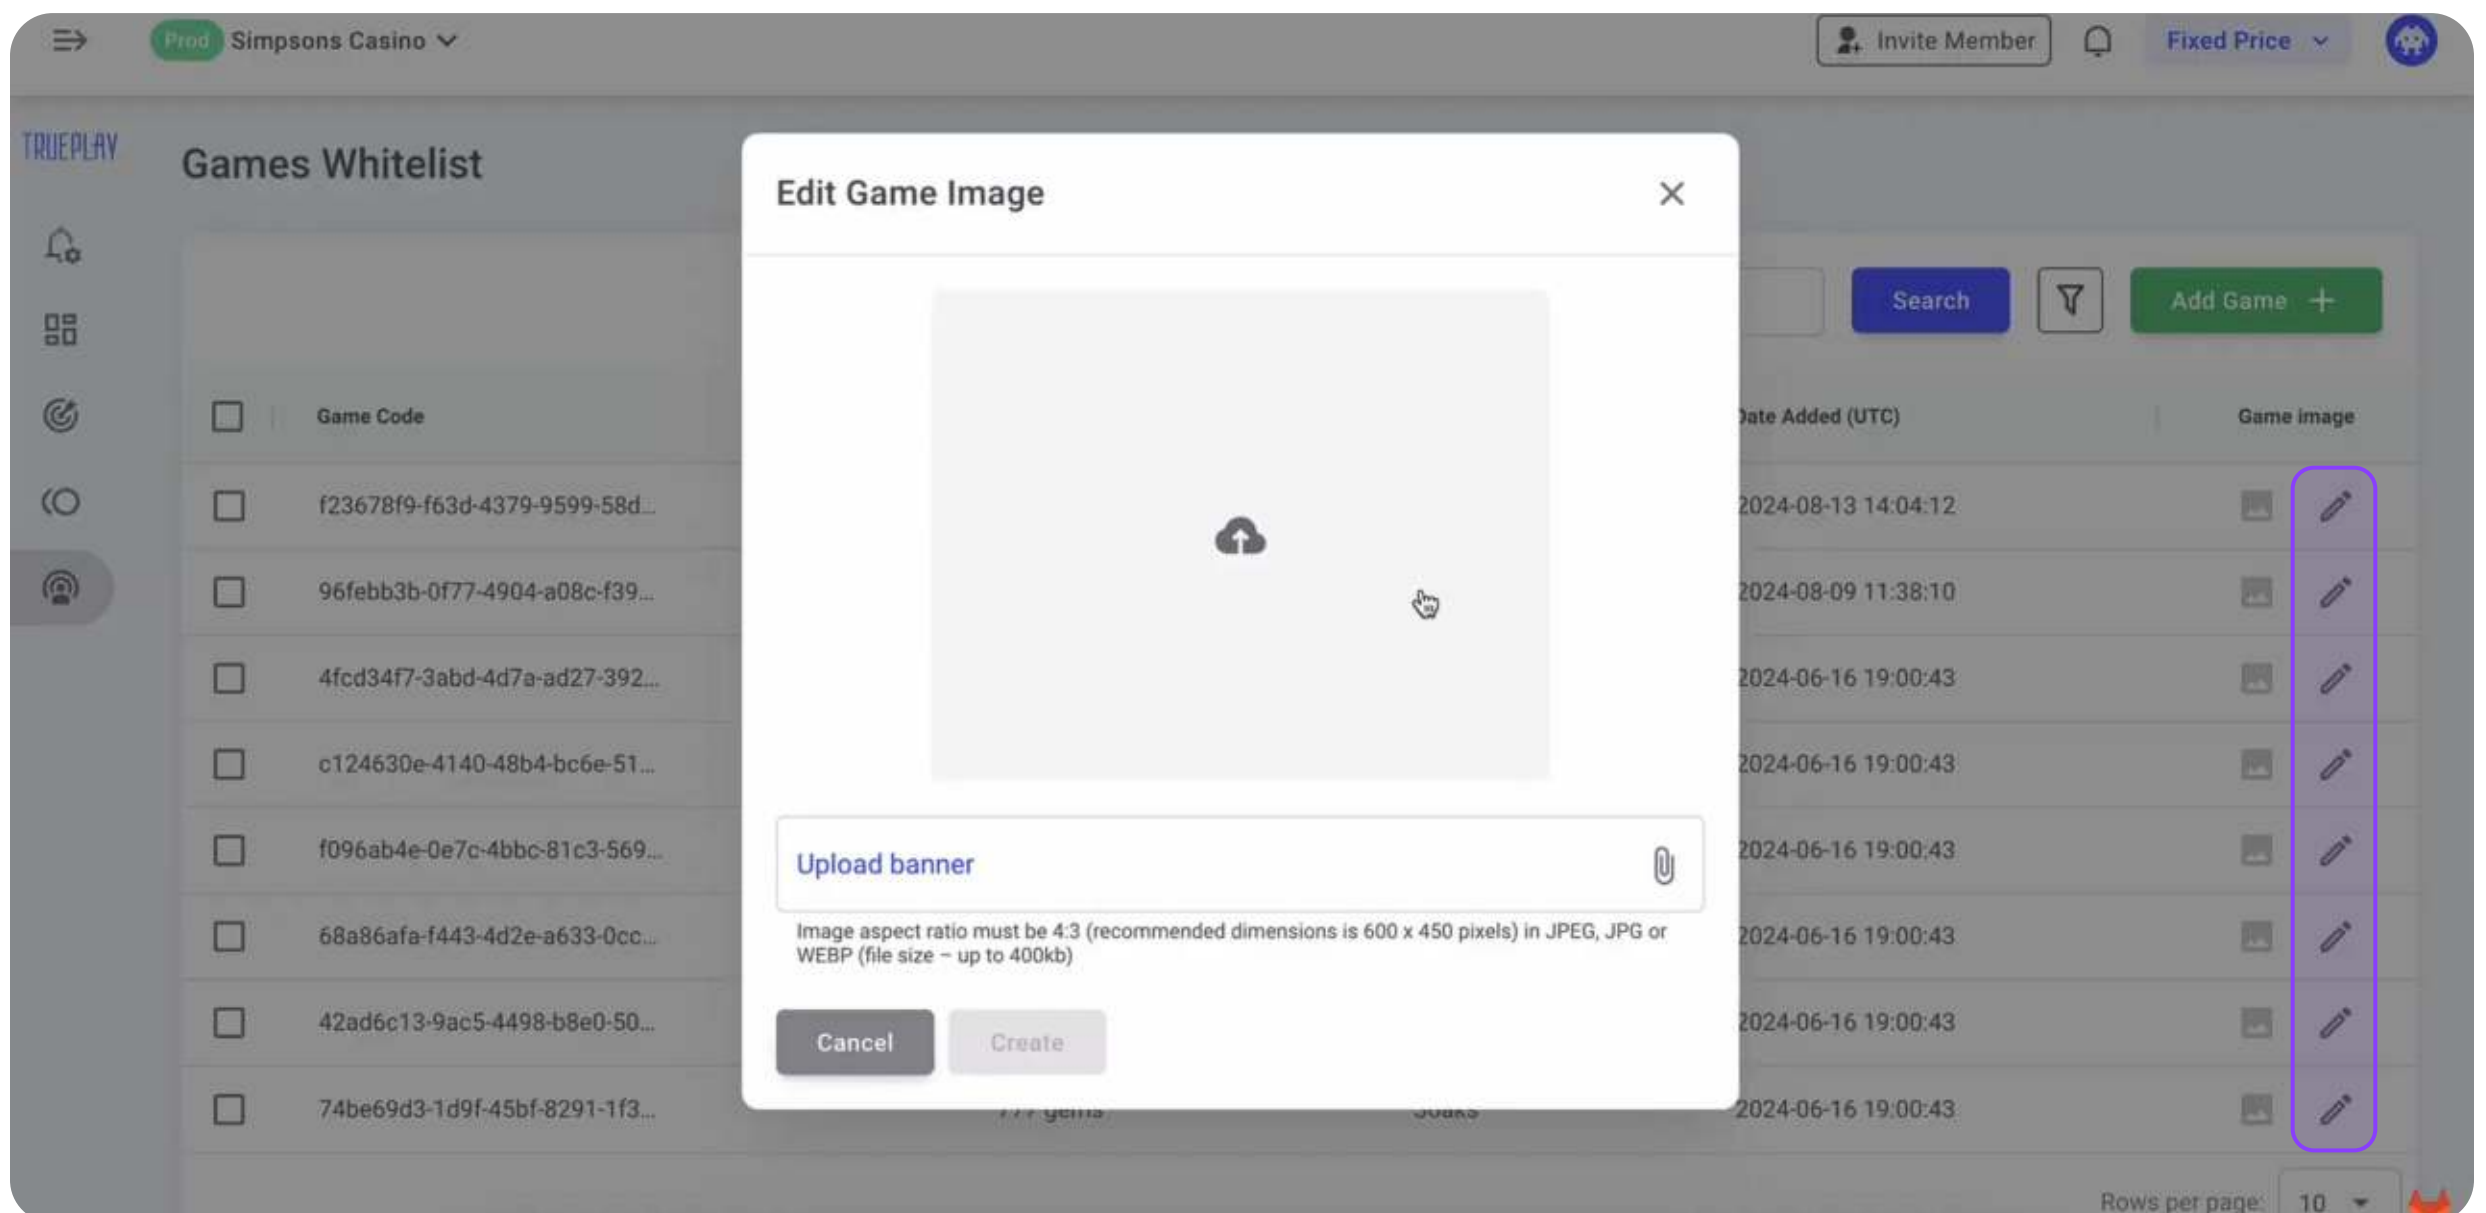

Adding a game

Click on the green **Add Game** button, enter the game's title in the search bar, select the game, and click the blue **Add 1 game** button at the bottom of the active window.

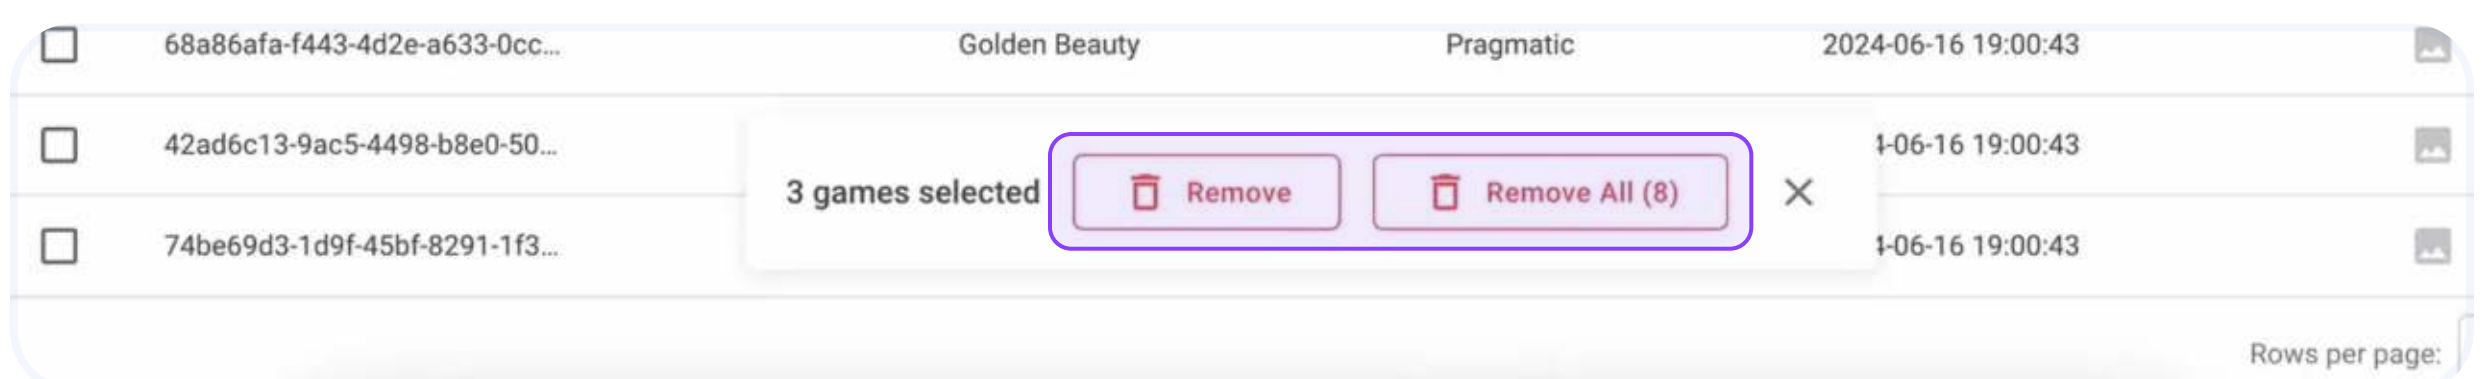

Adding game covers

Press the **edit icon** in the right corner of the page and upload a banner in the dedicated field in the window that appears.

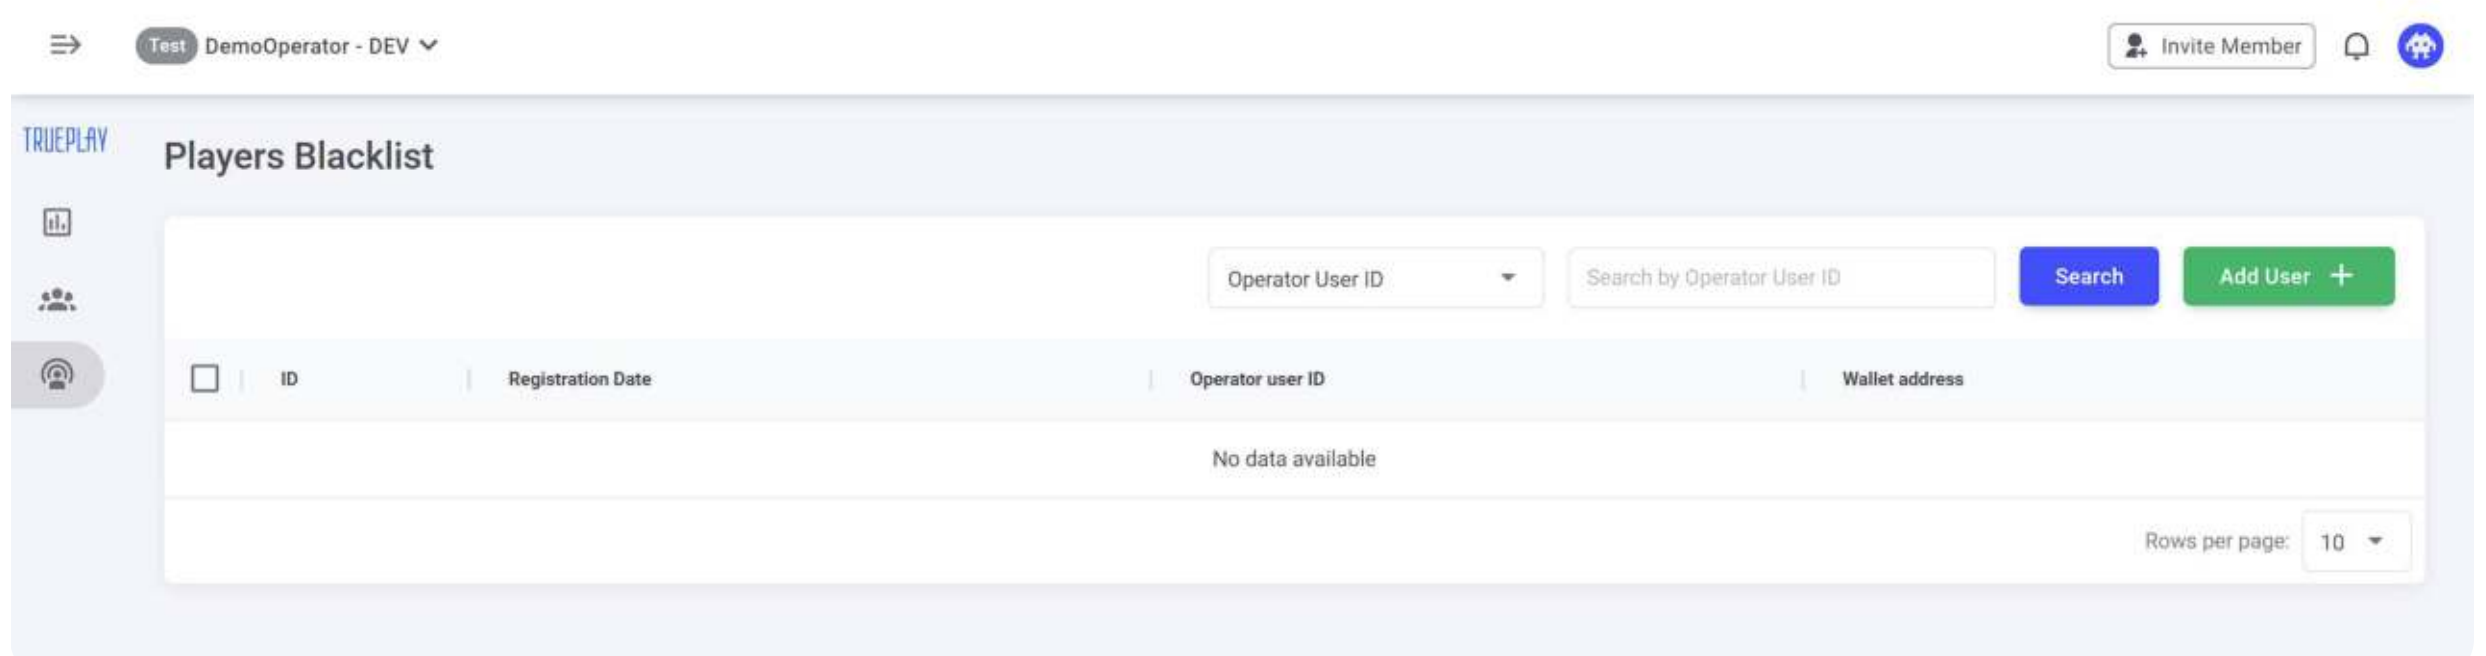

Removing a game

To delete a game, checkmark it and hit the **Remove** button.

Players Blacklist

Use **Players Blacklist** to limit a particular user's access to CopyStake if you spot any fraudulent activity associated with their **user ID**.

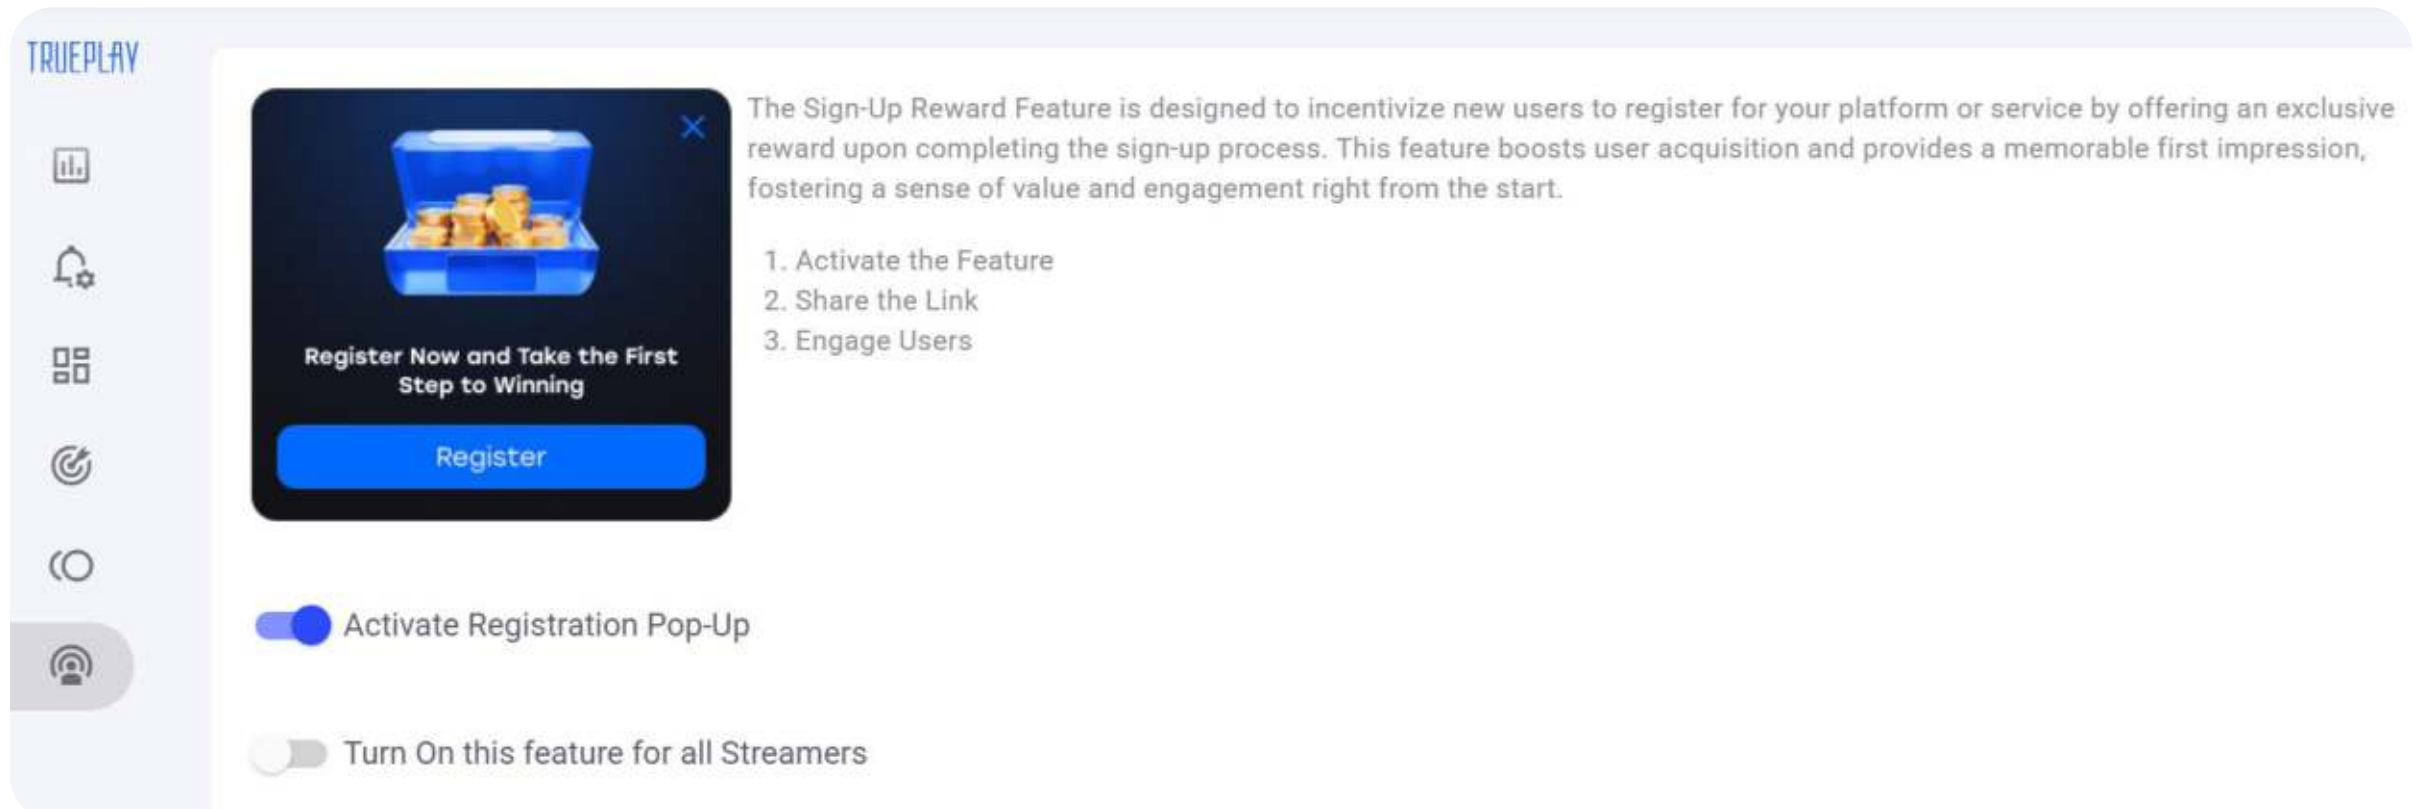

GAMIFICATION CENTER

Signup Reward

The Signup Reward will help you nudge unregistered users toward signing up. They will see a dedicated popup with a call to action shortly after joining a CopyStake stream.

You'll find two toggles for managing the feature on the homepage.

Registration popup activation

Toggle this switch on to activate the Registration popup.

A registration popup will appear for unauthorized users joining the stream via the shared link will see a Registration popup. It will help get their attention and encourage them to create an account immediately, enhancing user acquisition efforts.

Unregistered users who click the Register button will either see a signup form or get redirected to a separate page — depending on your settings.

Turning on the feature for all streamers

Pressing this toggle button activates the popup for unauthorized users who join the stream via the shared link.

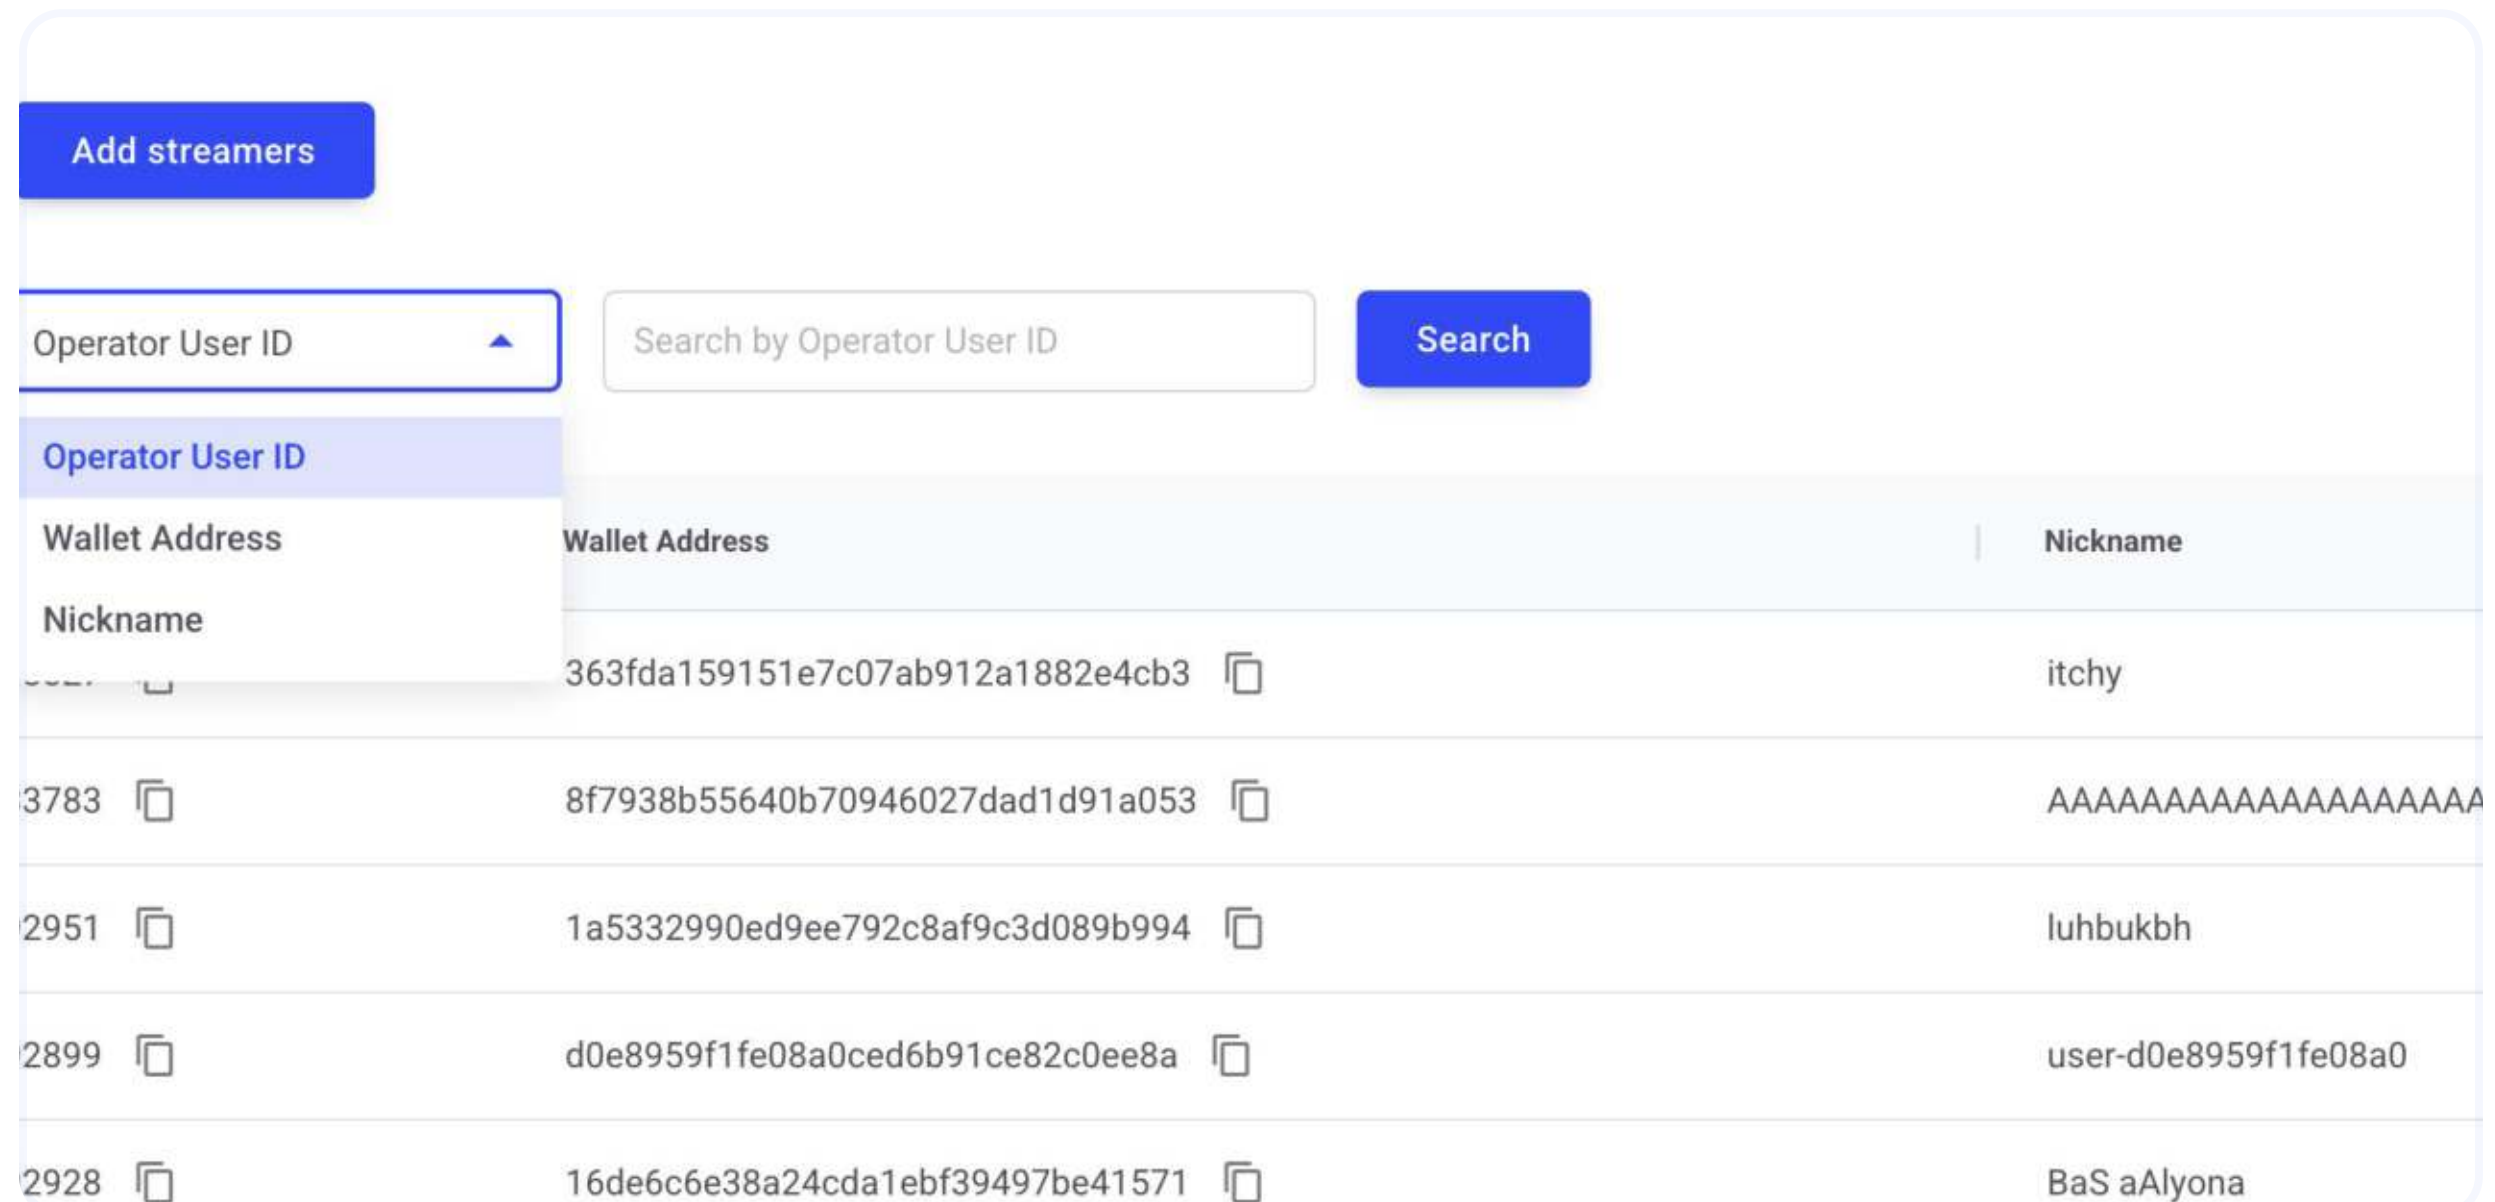

When enabled, the popup is activated for all streamers on the platform.

Keep the toggle off if you prefer only the audiences of selected streamers to see the registration reward popup.

Activating the Signup Reward for selected streamers

To assign this feature to streamers, hit the Add streamers button.

A window will open with the streamer management table, a dropdown filter, and a search bar.

The screenshot shows a user interface for managing streamers. At the top left is a blue button labeled "Add streamers". Below it is a search bar with the placeholder text "Search by Operator User ID" and a blue "Search" button. A dropdown menu is open, showing "Operator User ID" as the selected filter. Below the search bar is a table with the following columns: "Operator User ID", "Wallet Address", and "Nickname". The table contains five rows of data, each with a trash can icon in the "Operator User ID" column.

Operator User ID	Wallet Address	Nickname
3783	363fda159151e7c07ab912a1882e4cb3	itchy
2951	8f7938b55640b70946027dad1d91a053	AAAAAAAAAAAAAAAAAAAA
2899	1a5332990ed9ee792c8af9c3d089b994	luhbukbh
2928	d0e8959f1fe08a0ced6b91ce82c0ee8a	user-d0e8959f1fe08a0
	16de6c6e38a24cda1ebf39497be41571	BaS aAlyona

You can find a streamer by their user ID, wallet address, or nickname or checkmark them in the table.

Once you do so, press the Select button in the bottom right corner.

Deactivating the reward for a given streamer

To turn off the feature for a specific streamer, find them in the table and remove them from the list by clicking the trash can icon.

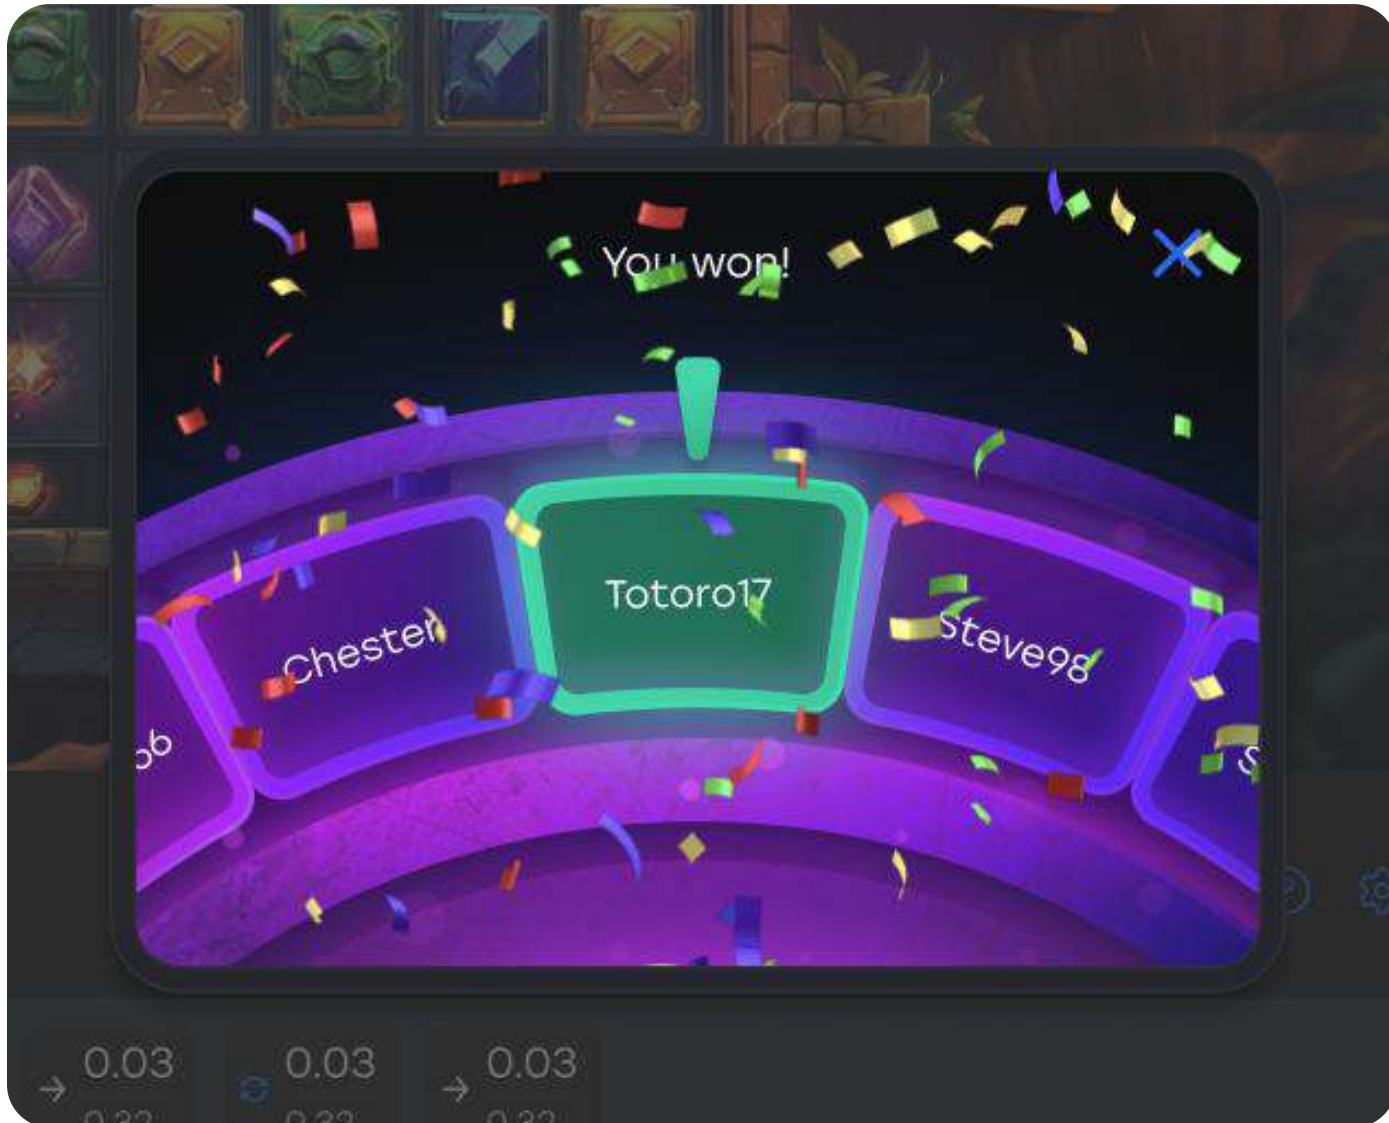

The screenshot shows a table with four columns: "Operator User ID", "Wallet Address", "Nickname", and "Action". The "Action" column contains trash can icons. The table contains three rows of data.

Operator User ID	Wallet Address	Nickname	Action
18827	363fda159151e7c07ab912a1882e4cb3	itchy	
33783	8f7938b55640b70946027dad1d91a053	AAAAAAAAAAAAAAAAAAAA	
92951	1a5332990ed9ee792c8af9c3d089b994	luhbukbh	

Wheel of Fortune

Wheel of Fortune (WoF) allows you to host prize giveaways for players copying.

Think of this feature as level 2 engagement for CopyStake streams. You motivate users to join the draw for the chance of winning monetary prizes or promo codes that, again, can be redeemed for cash.

Activating the Wheel of Fortune

To activate the Wheel of Fortune, flip the toggle switch on.

Once the feature is active, you can manage WoF campaigns.

Adding a new campaign

To create a campaign, click the Add Campaign button and fill in the necessary details: campaign name, duration, activation type, and the minimum number of participants.

Add Campaign

Campaign Name

Campaign starts at (UTC)

Campaign ends at (UTC)

Activate type

Minimal amount of viewers for activation (optional)

Prizes Streamer

Campaign name

Give your campaign a clear and engaging name and enter it in the field.

Schedule information

Then pick the start and end times using the calendar picker. The system uses five-minute increments and UTC.

The screenshot shows the 'Add Campaign' form. At the top is a text input for 'Campaign Name'. Below it is a section for 'Campaign starts at (UTC)' which includes a calendar picker. The calendar is for March 2025, and the date '7' is selected. Below the calendar is a time input field labeled 'hh : mm'. At the bottom of the form are 'Cancel' and 'Apply' buttons. A date '2025-01-02 1' is visible in the bottom right corner of the form.

Activation type

Then, decide who controls when the campaign starts: you or the streamer.

The screenshot shows the 'Activate type' dropdown menu. The dropdown is open, showing two options: 'Activate by Operator' and 'Activate by Streamer'.

In the former case, the campaign will begin based on the schedule you've set. In the latter, the streamer will start the campaign during the broadcast at their own discretion.

Minimum registered viewers

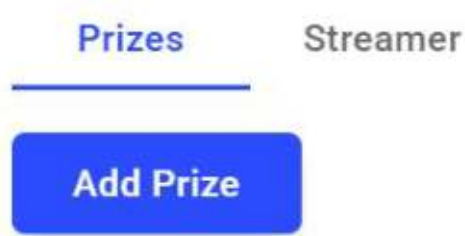

You can set the minimum number of registered viewers required for the campaign to start. This field is optional.

The screenshot shows the 'Minimal amount of viewers for activation (optional)' text input field. The input field contains the placeholder text 'Please type the amount of viewers...'.

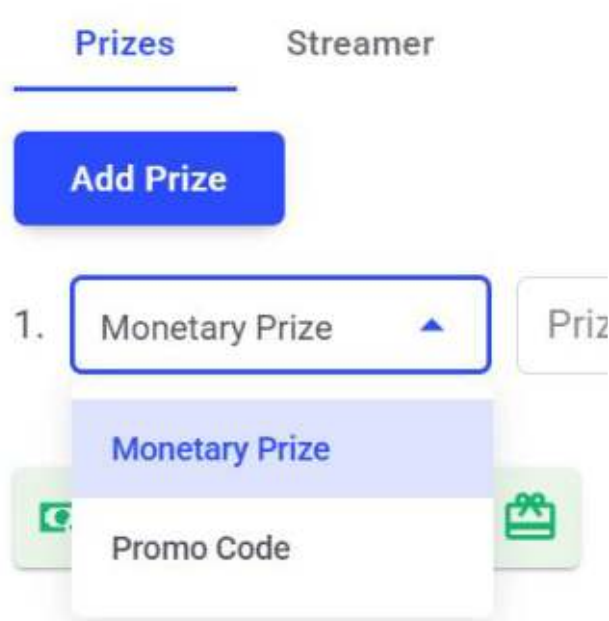

Creating a prize fund

Now, it's time to create the prize fund.

Navigate to the Prizes tab and press Add Prize.

Then choose the prize type in the dropdown menu.

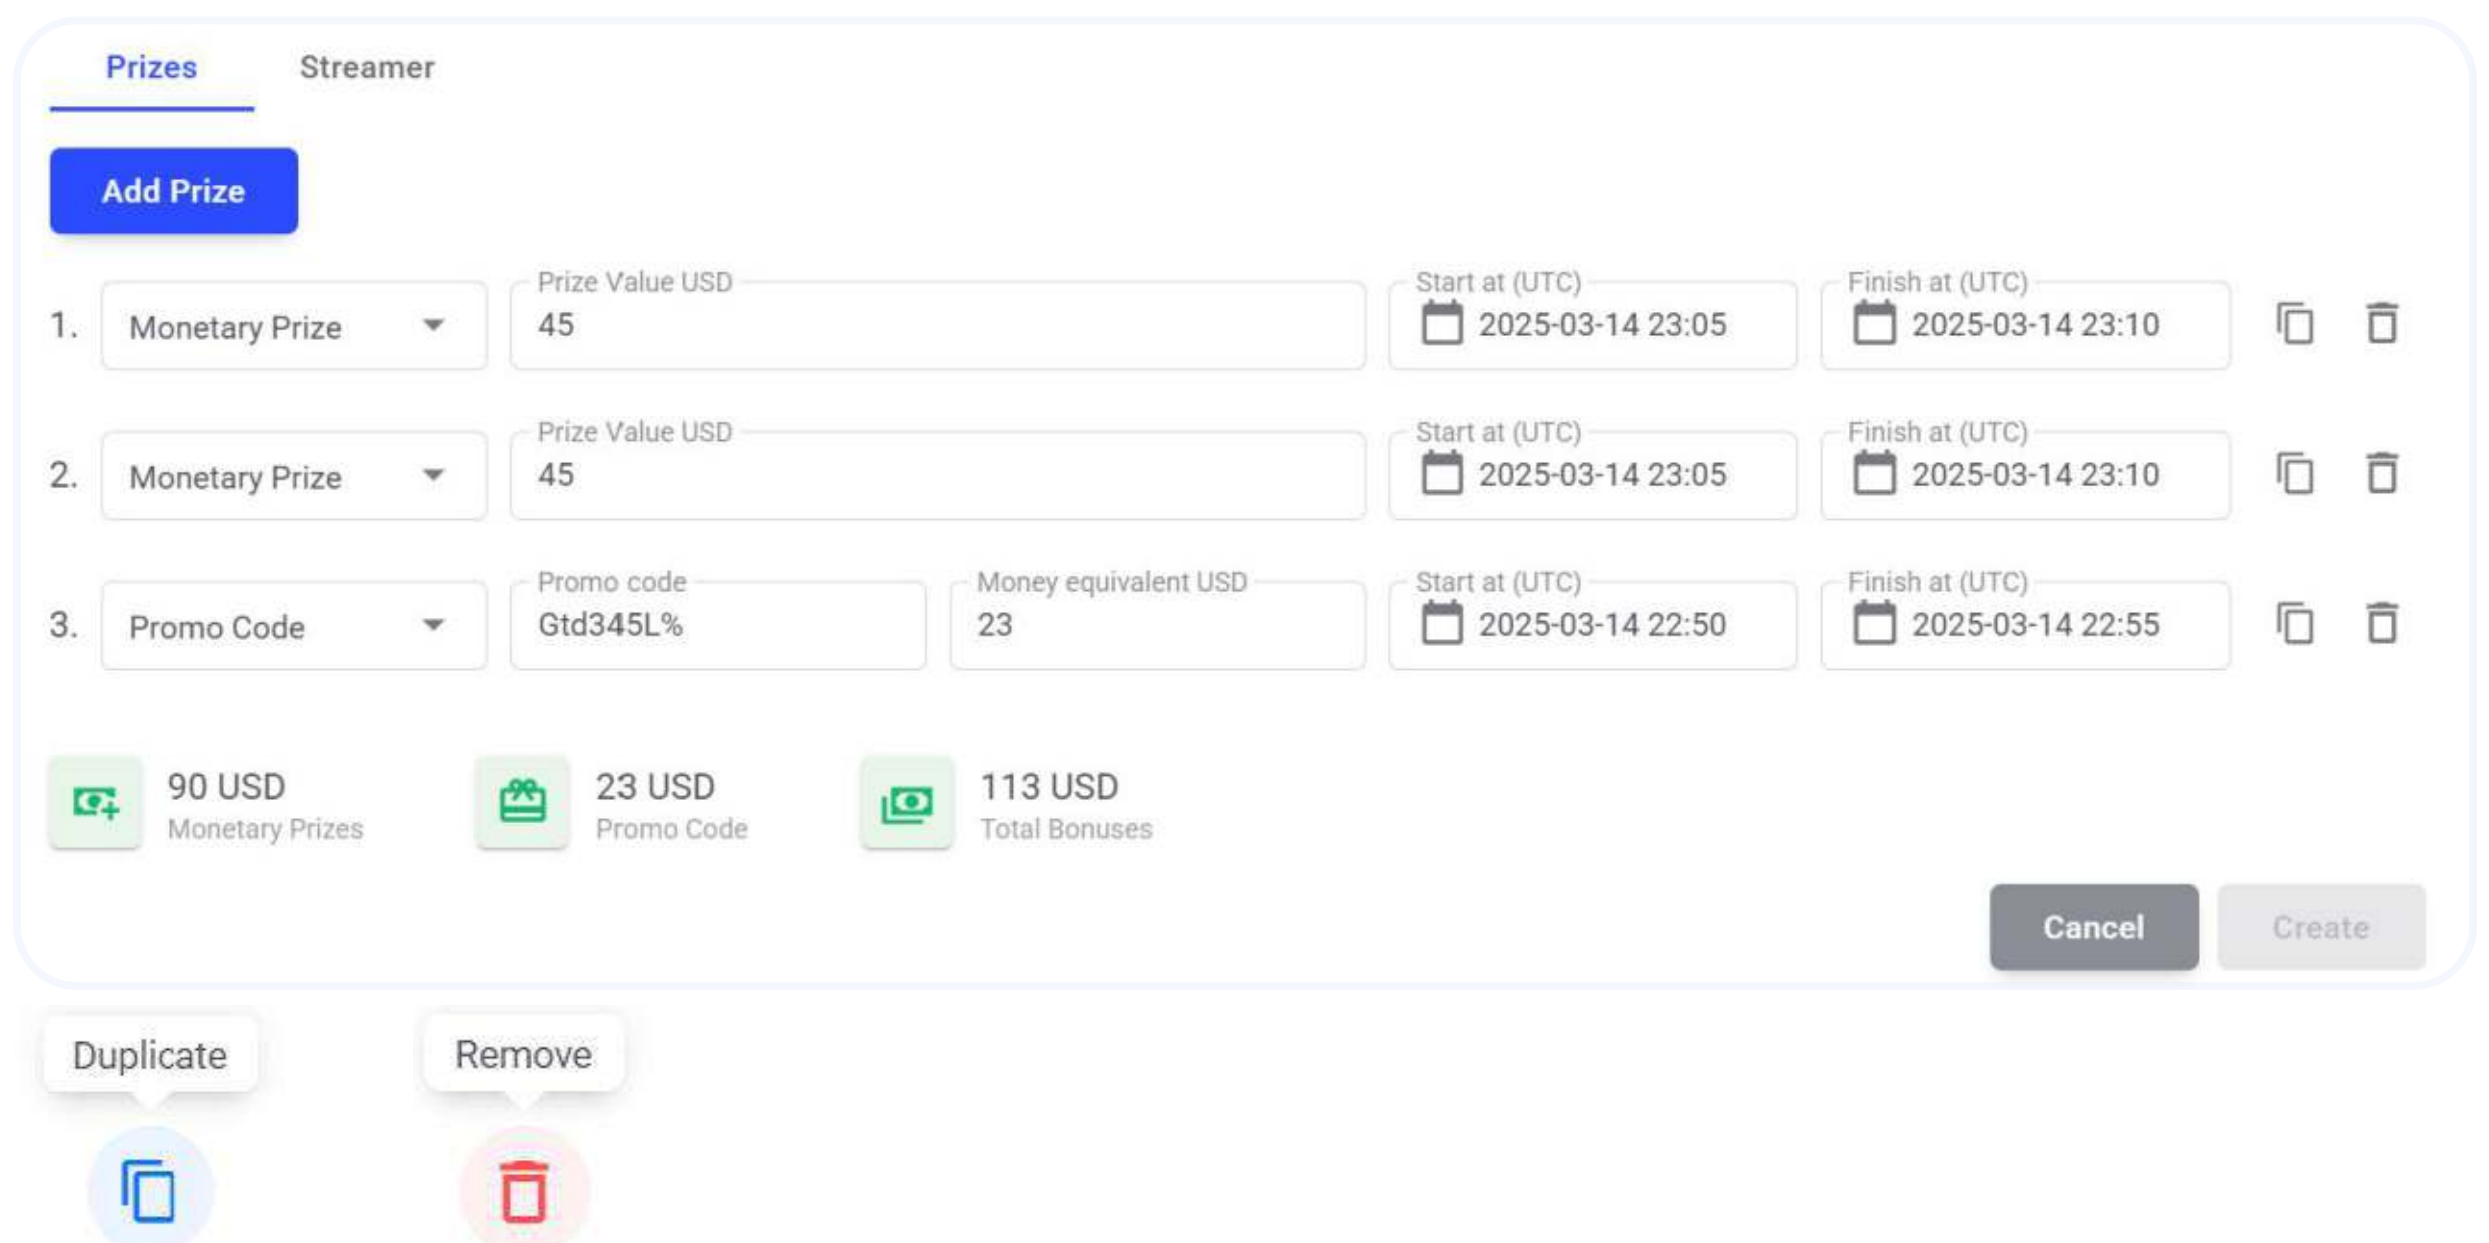

For a monetary prize, set a cash reward and enter the Prize Value in USD. You must implement the Reward endpoint to have the opportunity to give the monetary rewards to players.

Add a promo code and its monetary equivalent if you select this option. The promo code can contain lowercase and uppercase letters, special characters, and digits. Please note you need to specify Start at and Finish at timestamps for gifts.

Managing prizes

You can duplicate and remove a prize by clicking on the corresponding icons to the right in the Add Campaign window.

Total prize summary

You will see the breakdown of rewards and the total prize pool value at the bottom of the window.

WoF campaign statuses

Each campaign progresses through different statuses: pending, running, and finished.

ID	Campaign Name	Operator User ID	JP Target, USDT	JP Actual, USDT	Creation Date ↑	Start (UTC)	End (UTC)	Status	Action
61	Test_11 (Copied)	59847	100		2025-02-11 14:43	2025-02-11 15:14	2025-02-11 16:30	Running 30% (30 USDT)	
2	test	92973	1 000	0	2025-01-27 11:33	2025-01-30 02:10	2025-01-31 01:09	Finished 0% (0 USDT)	
3	test1	92912	12	0	2025-01-29 11:17	2025-02-06 09:40	2025-02-06 09:45	Finished 0% (0 USDT)	
4	test2	92973	100 000		2025-01-29 11:24	2025-02-13 00:00	2025-02-28 01:10	Pending	
5	test (Copied)	92973	1 000		2025-01-29 12:03	2025-01-30 02:10	2025-01-31 02:10	Pending	

Only pending campaigns can be edited. Click the pencil icon on the right side of the page to adjust settings and add or remove prizes.

Campaign details will be available afterward.

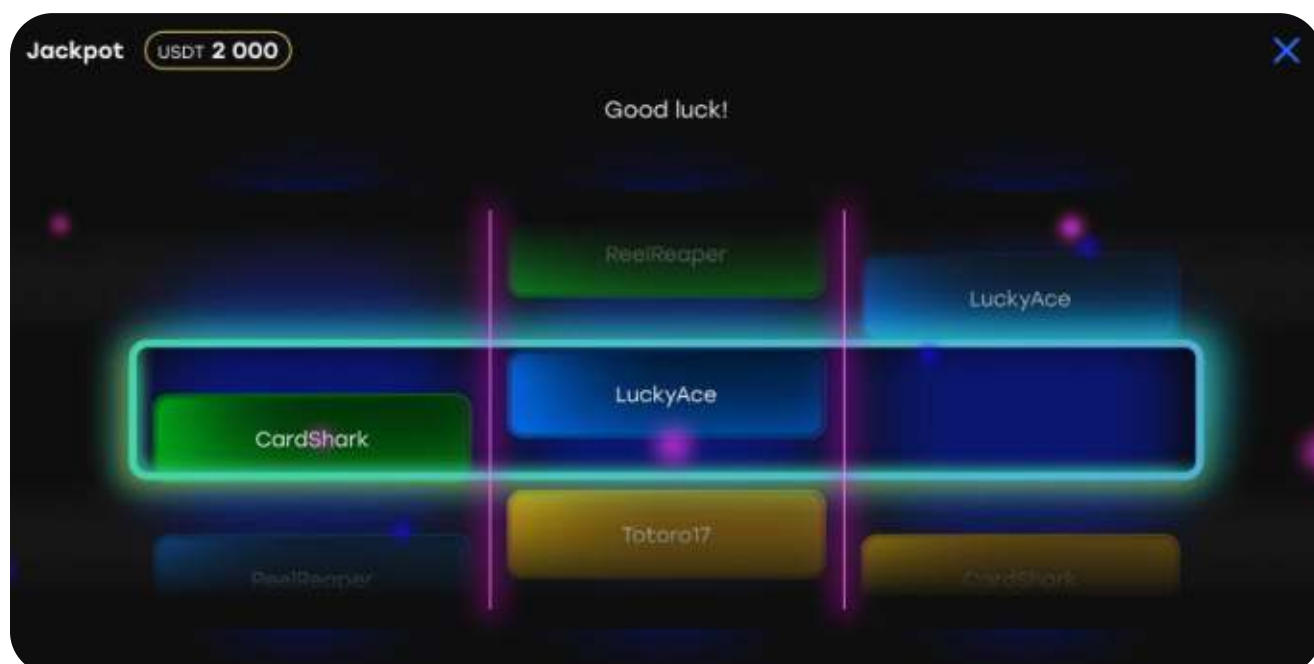

Copying a finished campaign

Click the three-dot menu next to a finished campaign. Select Copy Campaign to create an identical one.

Update the start and end dates and launch it as a new campaign.

Jackpot

The Gamification Center also features the Jackpot — a special prize for active participants of CopyStake streams.

Like the previous gamification features, Jackpot is activated with a toggle.

Creating the Jackpot campaign

To create a Jackpot campaign, you'll need to take similar steps to managing the Wheel of Fortune.

Start by clicking the Add Campaign button. In the window that opens, enter the campaign name and the start and end dates.

A screenshot of the "Add Campaign" form. It has a title bar with "Add Campaign" and a close button. The form contains several input fields: "Campaign Name", "Start event (UTC)", and "End event (UTC)". Below these is a "Streamers" section with a "Select Streamer" button. There are also fields for "Jackpot Target" (with a "USDT" label), "Minimum Number of Viewers ...", and "Percentage from User's Bet V..." (with a "%" label). At the bottom, there is a toggle switch for "Insufficient Funds for Draw?" with the text "If the total funds fall short, the draw will start earlier." and two buttons: "Cancel" and "Create".

Then, choose the streamer to host the Jackpot event by pressing Add Streamer and check-marking them in the table.

Operator User ID	Wallet Address	Nickname
<input type="checkbox"/> 128036	adc83748d57a9bf2ade407552fab79dd	MarCom
<input checked="" type="checkbox"/> 119250	f89f9db1acf01a547485c94e31c541ef	Butters
<input type="checkbox"/> 109810	0d54aafe2c401b020d15c9ef5d68047b	NEW_STREAMER
<input type="checkbox"/> 92973	11a865c76aba19d467f4d7c6c9f73b89	Streamer Alyona123
<input type="checkbox"/> 92918	6807693dca858571dc20b596a46b4d50	Prof Streamer

You can also streamline your search using a filter and the search field.

Operator User ID

Search by Operator User ID

Search

Operator User ID

Wallet Address

Nickname

adc83748d57a9bf2ade407552fab79dd

The streamer you've selected will appear in the Streamers section.

Jackpot target

Set the total jackpot amount that needs to be reached for the draw to begin. This target is visualized as a jar.

Users can also monitor how the jar is being filled in a progress bar below the video player.

Stop

Events

Join Jackpot USDT 2 000

Minimum number of viewers

Specify the minimum number of registered viewers needed for the campaign to start if you wish to implement this limit.

Next, you need to set the percentage of each copied bet that will go towards reaching the Jackpot target. The mechanic is designed to encourage players to continue copying bets.

By pressing this toggle button, you can enable a Jackpot draw before the target is reached.

Insufficient Funds for Draw?

If the total funds fall short, the draw will start earlier.

Before Draw Starts

Specify how many minutes before the campaign's end time the drawing must happen in the Before Draw Starts field.

Managing Jackpot campaigns

Once you've filled in all the fields, click Create to launch the campaign.

You'll find a list of active and completed campaigns with their details below the campaign creation panel.

Campaign statuses

Jackpot campaigns have the same statuses as Wheel of Fortune ones: pending, running, and finished. Only pending campaigns are editable.

2	test	92973	1 000	0	2025-01-27 11:33	2025-01-30 02:10	2025-01-31 01:09	Finished 0% (0 USDT)

STREAM EXPERIENCE

In addition to Wheel of Fortune and Jackpot, these features work as engagement boosters by tapping into human desires for competition, public recognition, and opinion sharing.

Player and winner leaderboard

Each session, CopyStake records players' bets and wins and shows these statistics in **Top Winners** and **Top Players** rankings.

Both leaderboards are located at the bottom of the broadcast page.

One can view a complete ranking in the Stream Leaders Dashboard by clicking or tapping on the Top Winners or Top Players sections.

Emoji reactions

Emoji reactions help to liven up gaming sessions by allowing viewers to quickly express their attitudes to what's happening on the screen.

Additionally, stream hosts can encourage users to send emojis to react to highlights like big wins or funny moments or vote for the next game. Emojis are shown as floating animations on a video player.

Only registered players can send emoji reactions.

BECOME A STREAMER

CopyStake has extended its functionality to cover more players' needs and ambitions, giving operators a tool for enabling user-generated content.

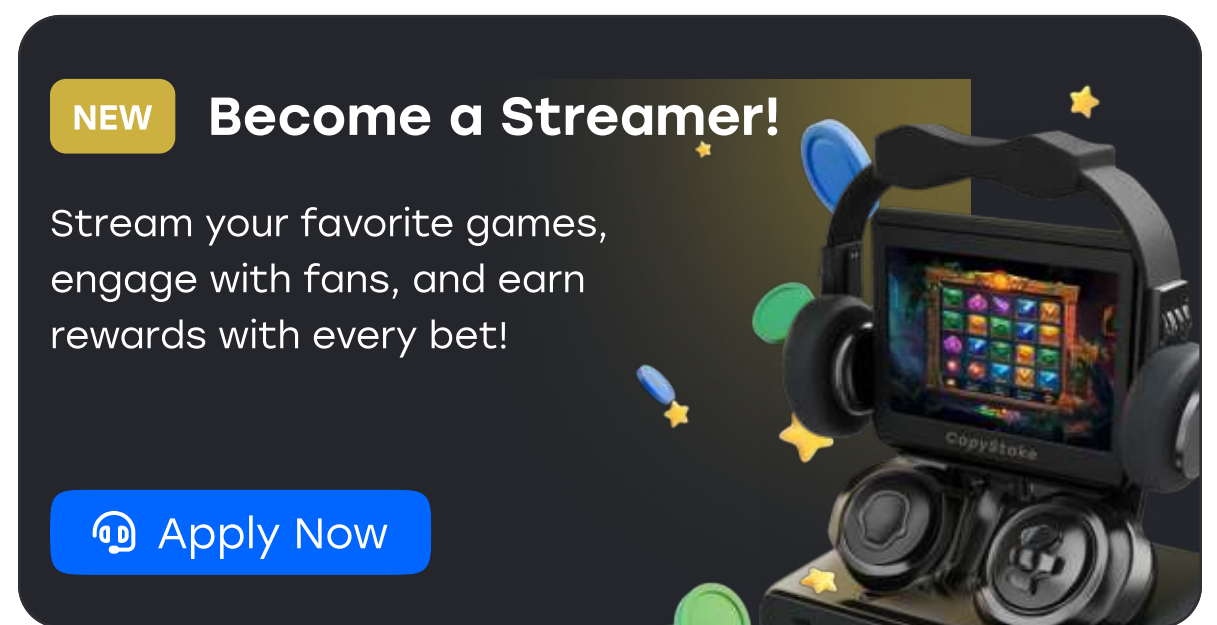

The Become a Streamer feature gives regular players a chance to try themselves in a streamer's role on an iGaming website. The feature helps increase the number and frequency of streams and session durations, keeping the CopyStake lobby active. Operators can encourage more players to copy bets and, therefore, grow revenue.

This feature also motivates players to spread content across channels, such as social media and streaming platforms, promoting the operator's brand.

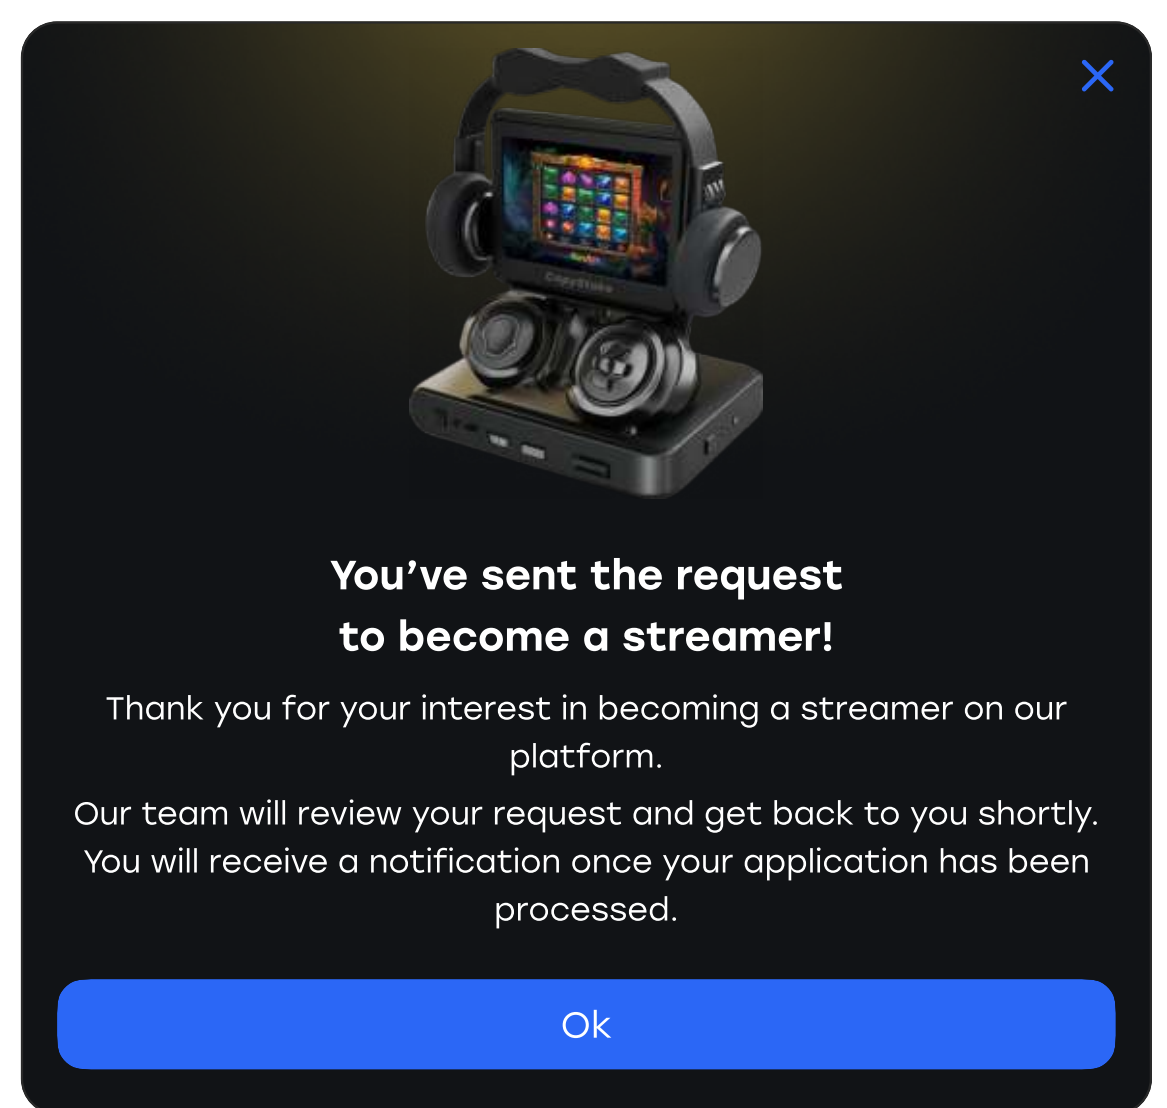

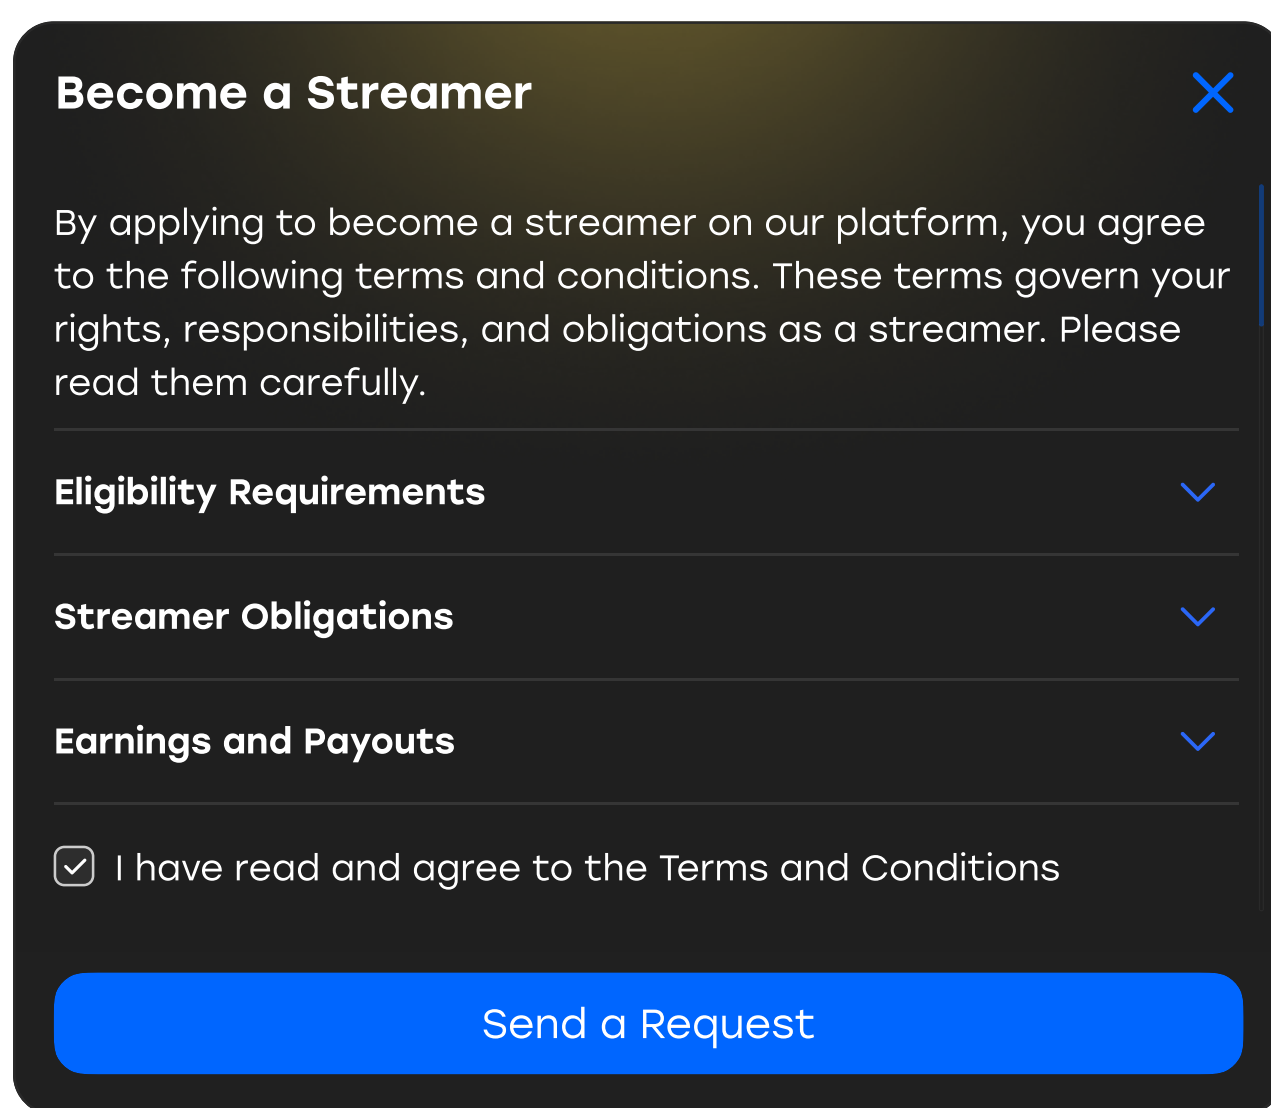

User interaction with feature

The Become a Streamer section is located in the CopyStake lobby.*

 *This feature is only available on desktop.

The user clicks **Apply Now**, reviews and agrees to the Terms and Conditions in a modal window, and sends a request using the **Send a Request** button.

Streamer approval in Admin Panel

1. Operators can process the submitted requests to become a streamer on the casino website in the Admin Panel. Follow this path:

Become a Streamer page → CopyStake menu → Pending Streamers section

2. To review them, expand the section by clicking on the down arrow.

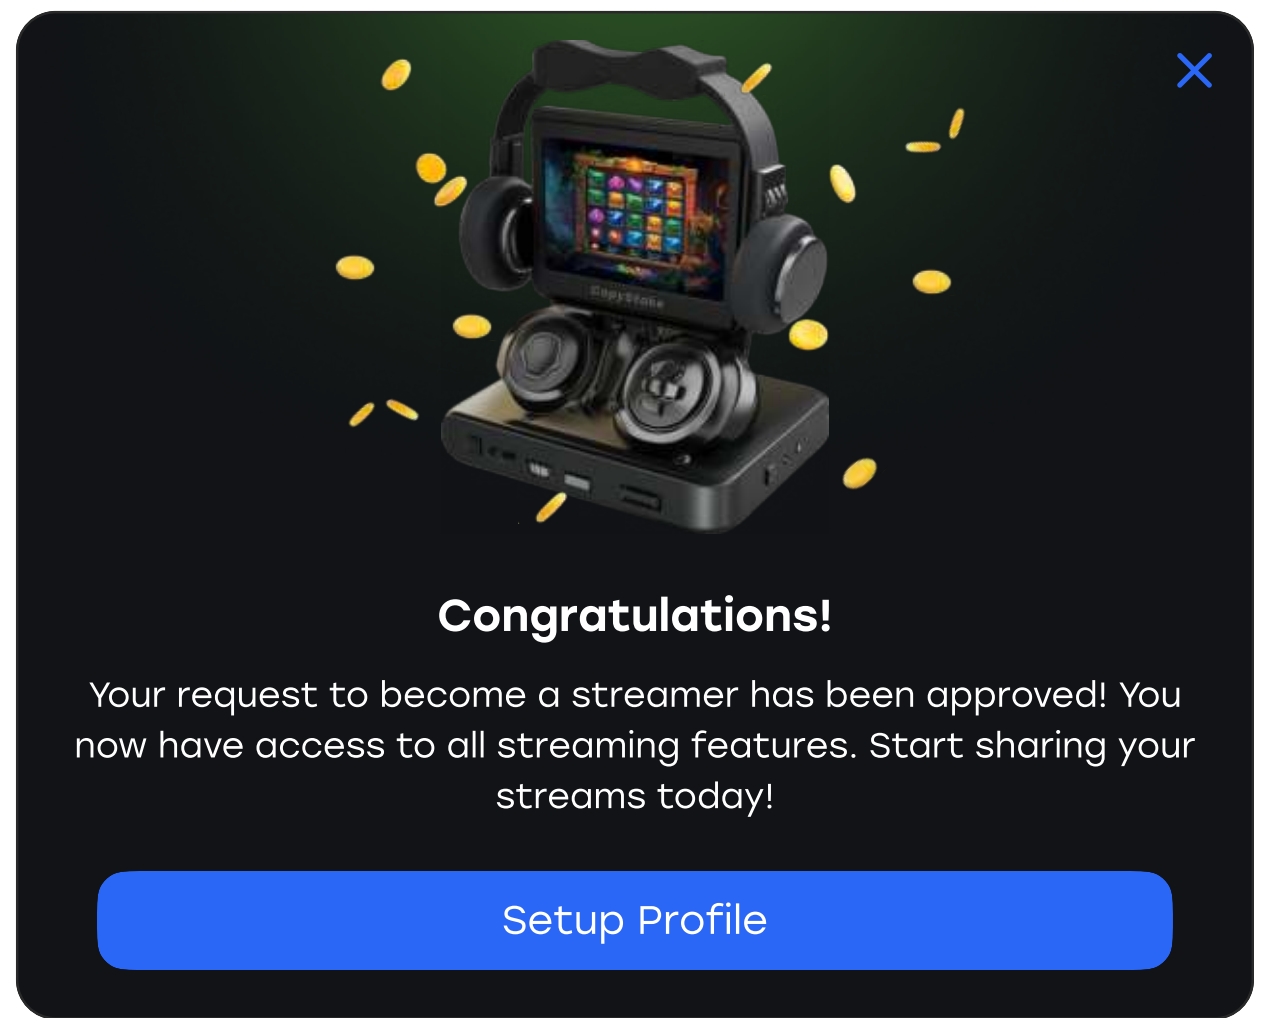

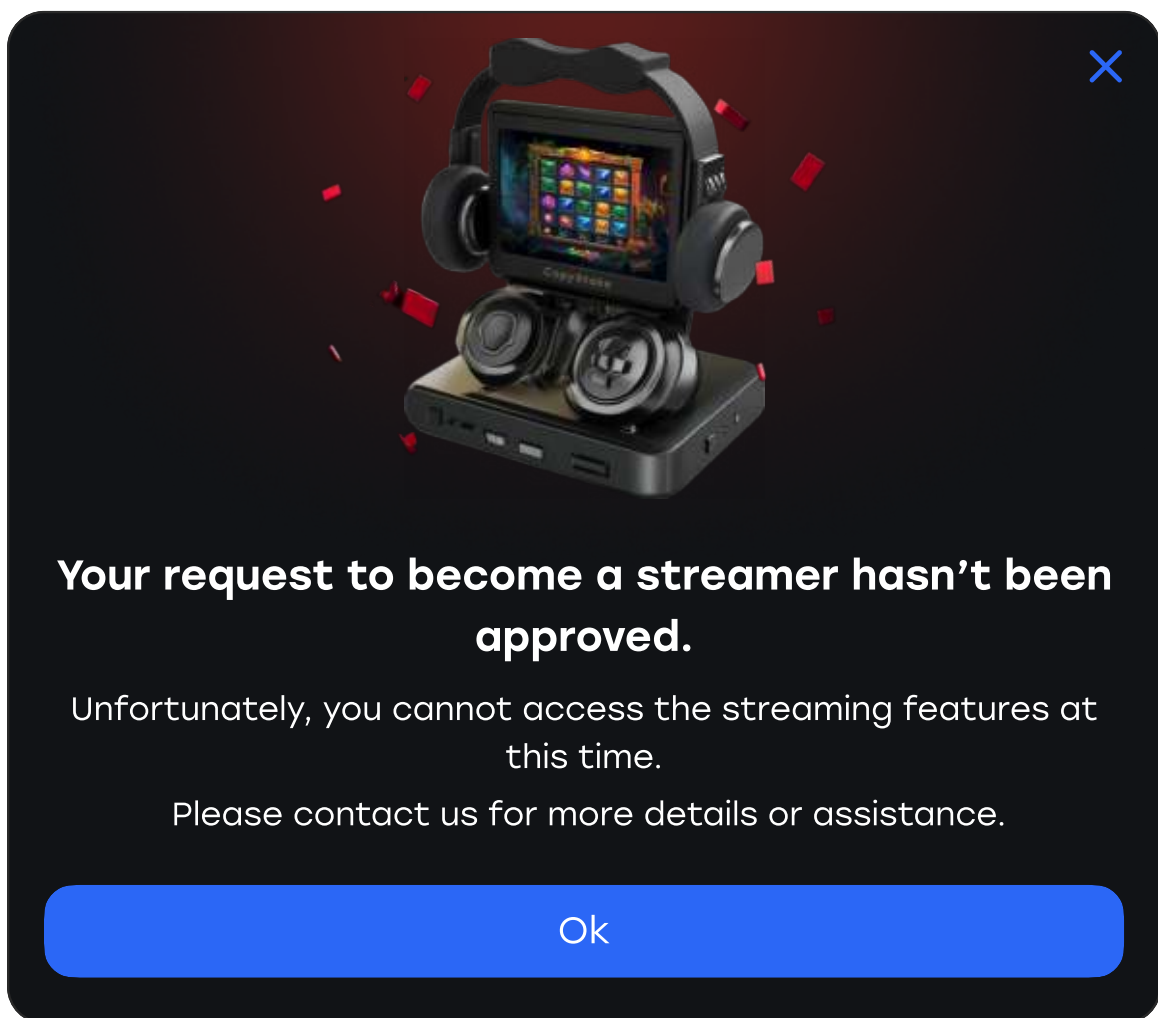

Pending Streamers 3		
DATE	OPERATOR USER ID	ACTION
12.12.2025	1233884900034 	✘ ✔
12.12.2025	1233884900034 	✘ ✔
12.12.2025	1233884900034 	✘ ✔

< 1 ... 8 9 10 11 ... 15 >

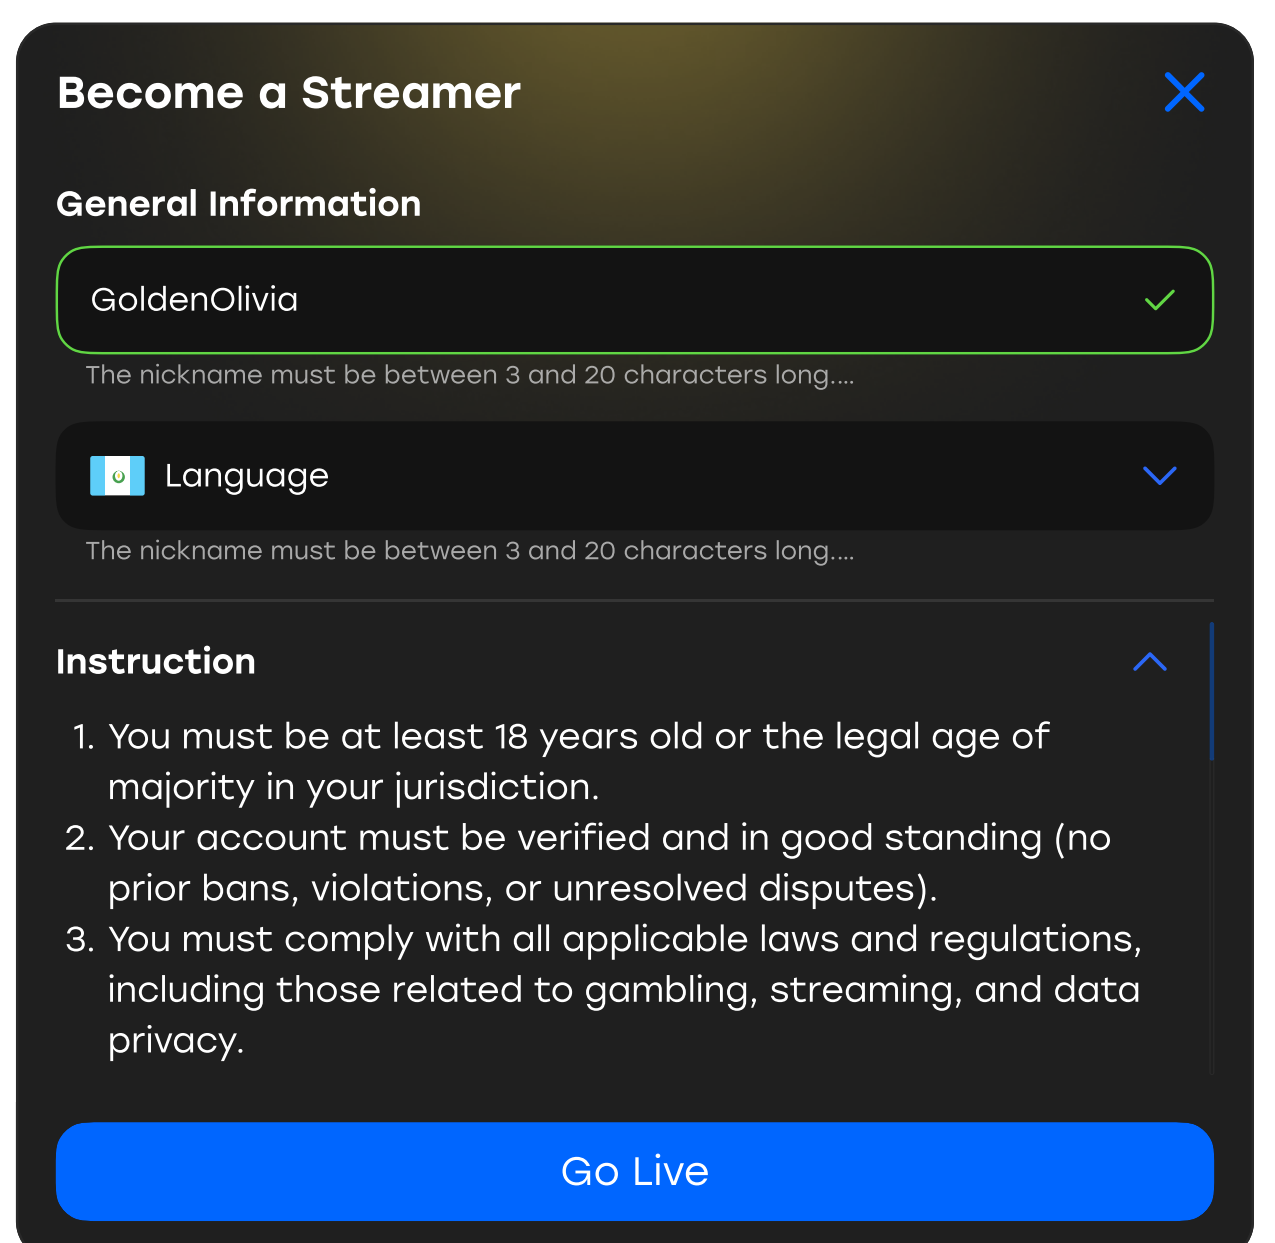

Rows per page: 10 ▾

The table contains application timestamps and candidates' operator user IDs.

3. Once you make your decision, click the green checkmark to approve the request or the red cross to decline it. Users will see corresponding modal windows in CopyStake.

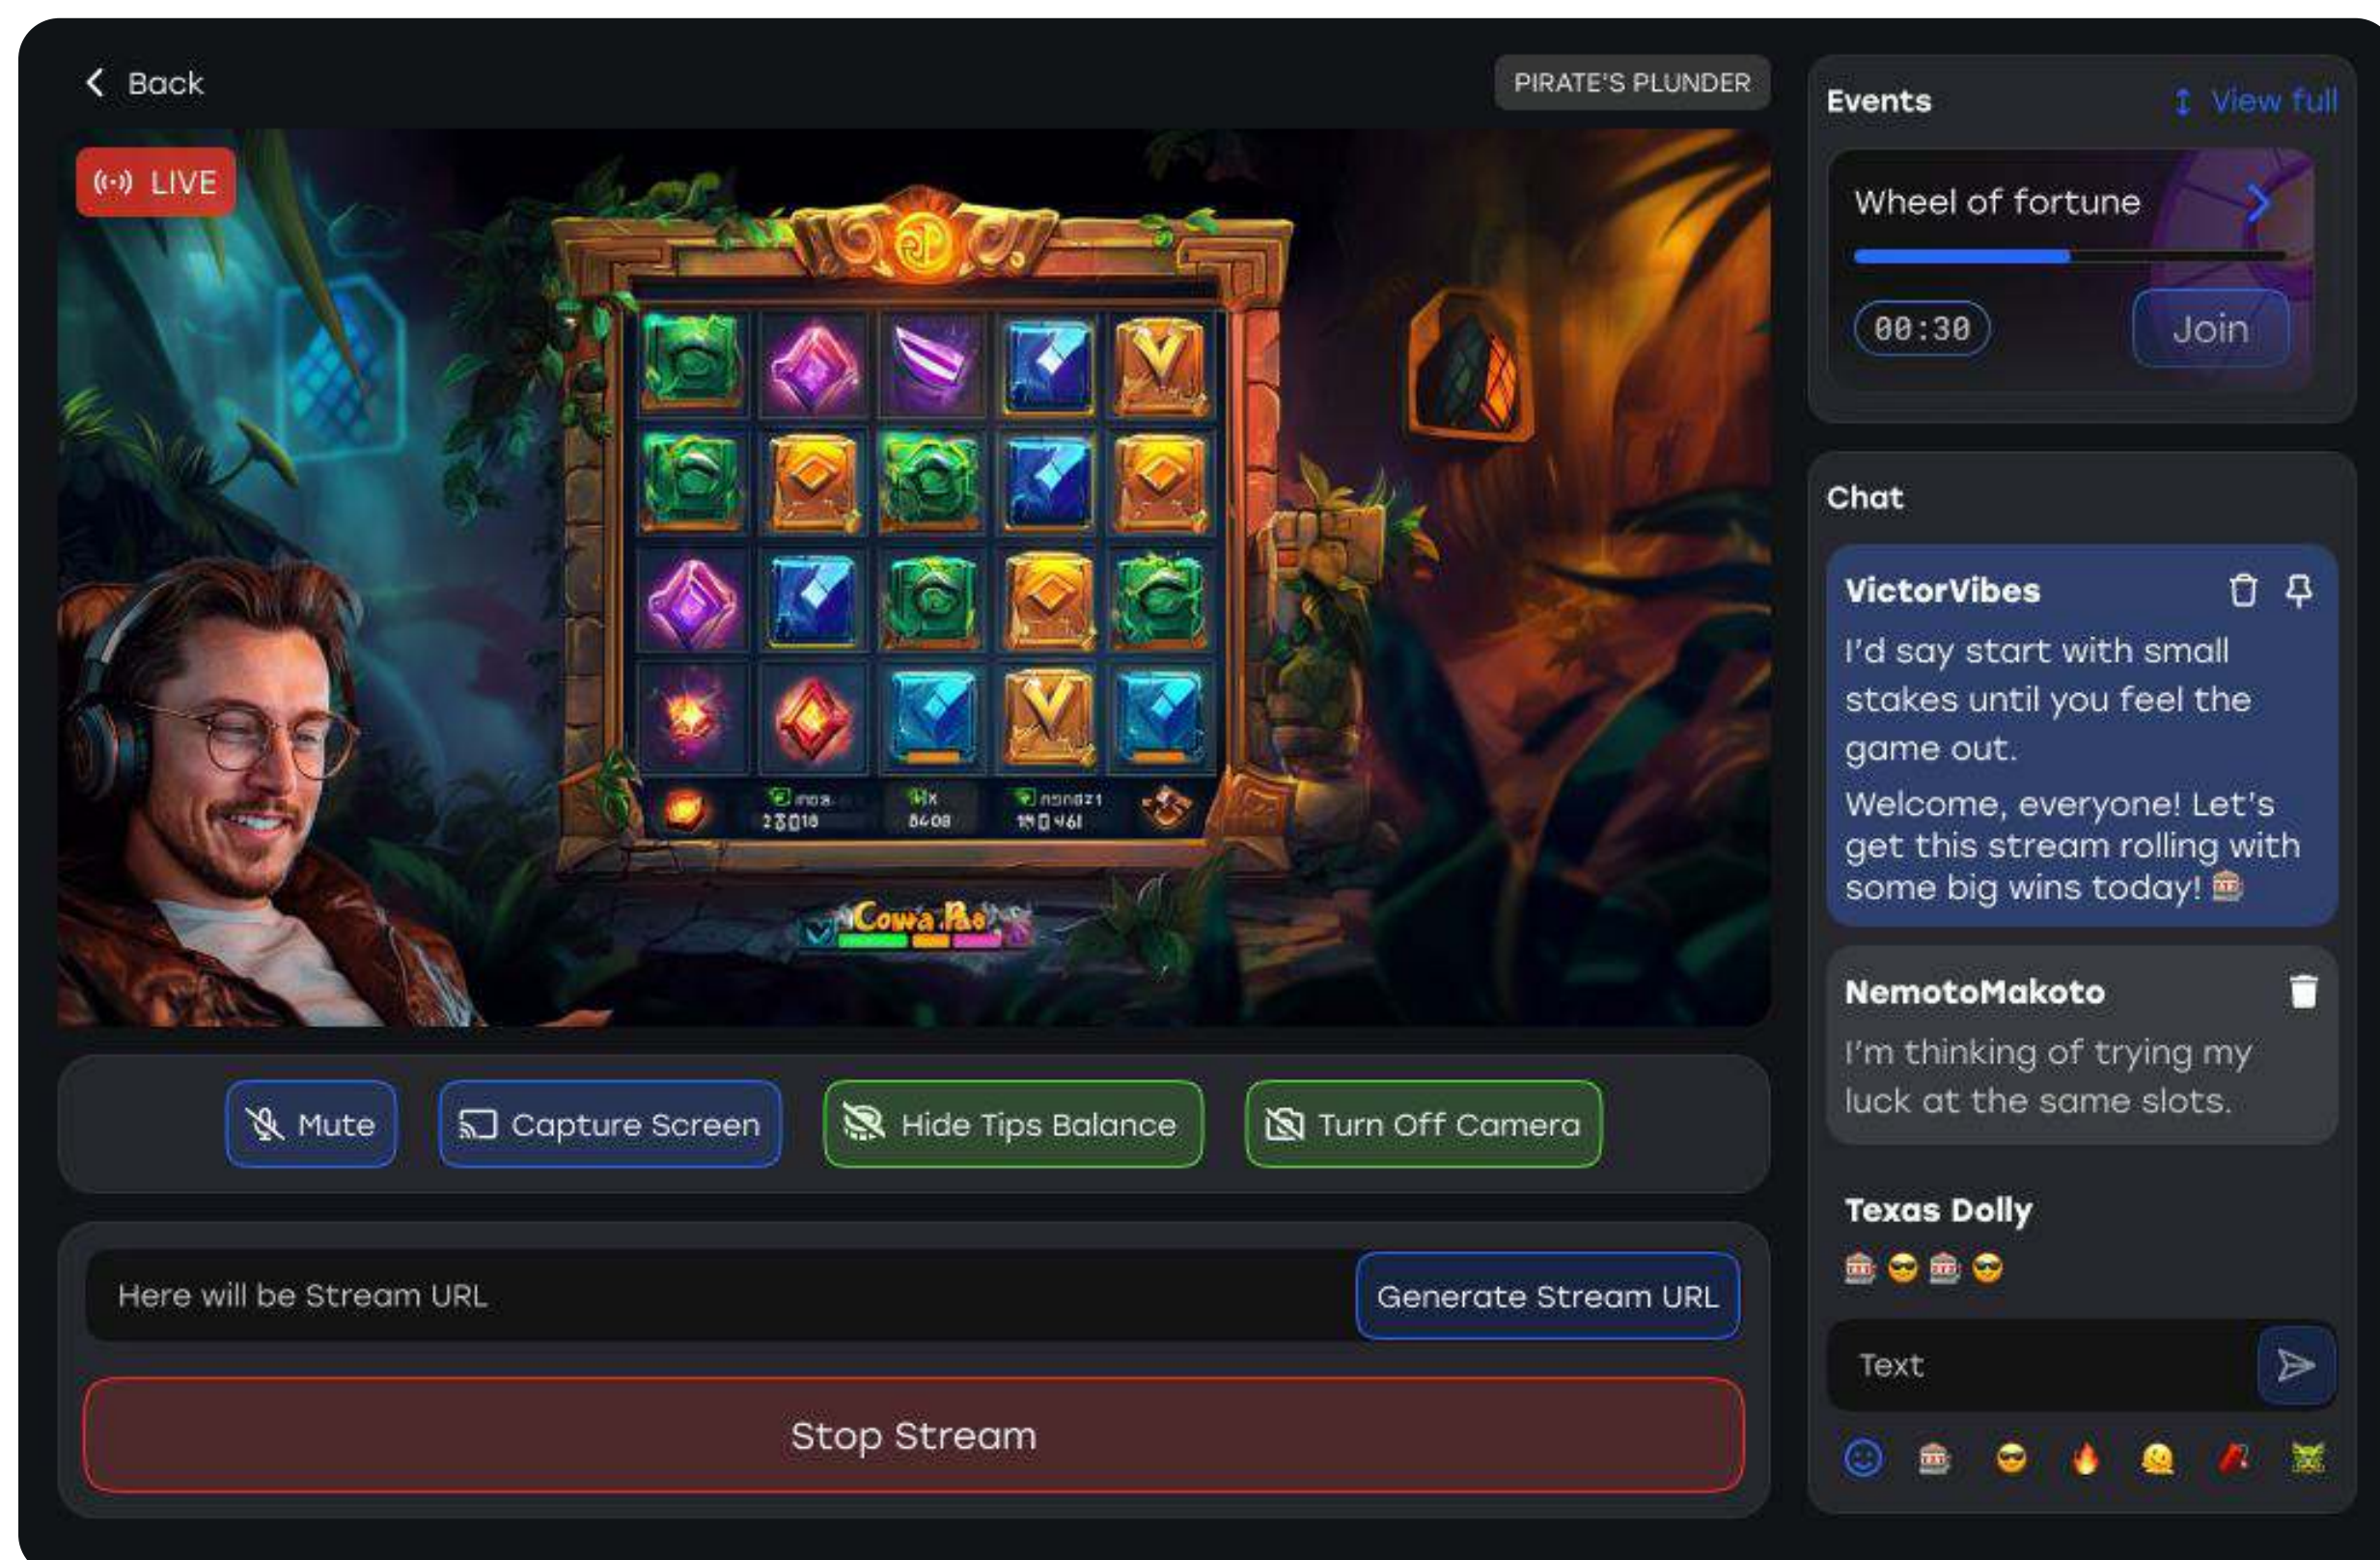

4. Customers whose requests you've approved can continue their journey, setting up profiles and specifying their nickname and the language they will stream in.

Streamer's cockpit

After clicking the Go Live button, users will proceed to the cockpit, where they will have to share their screen and turn on the microphone (mandatory) and the webcam (optional).

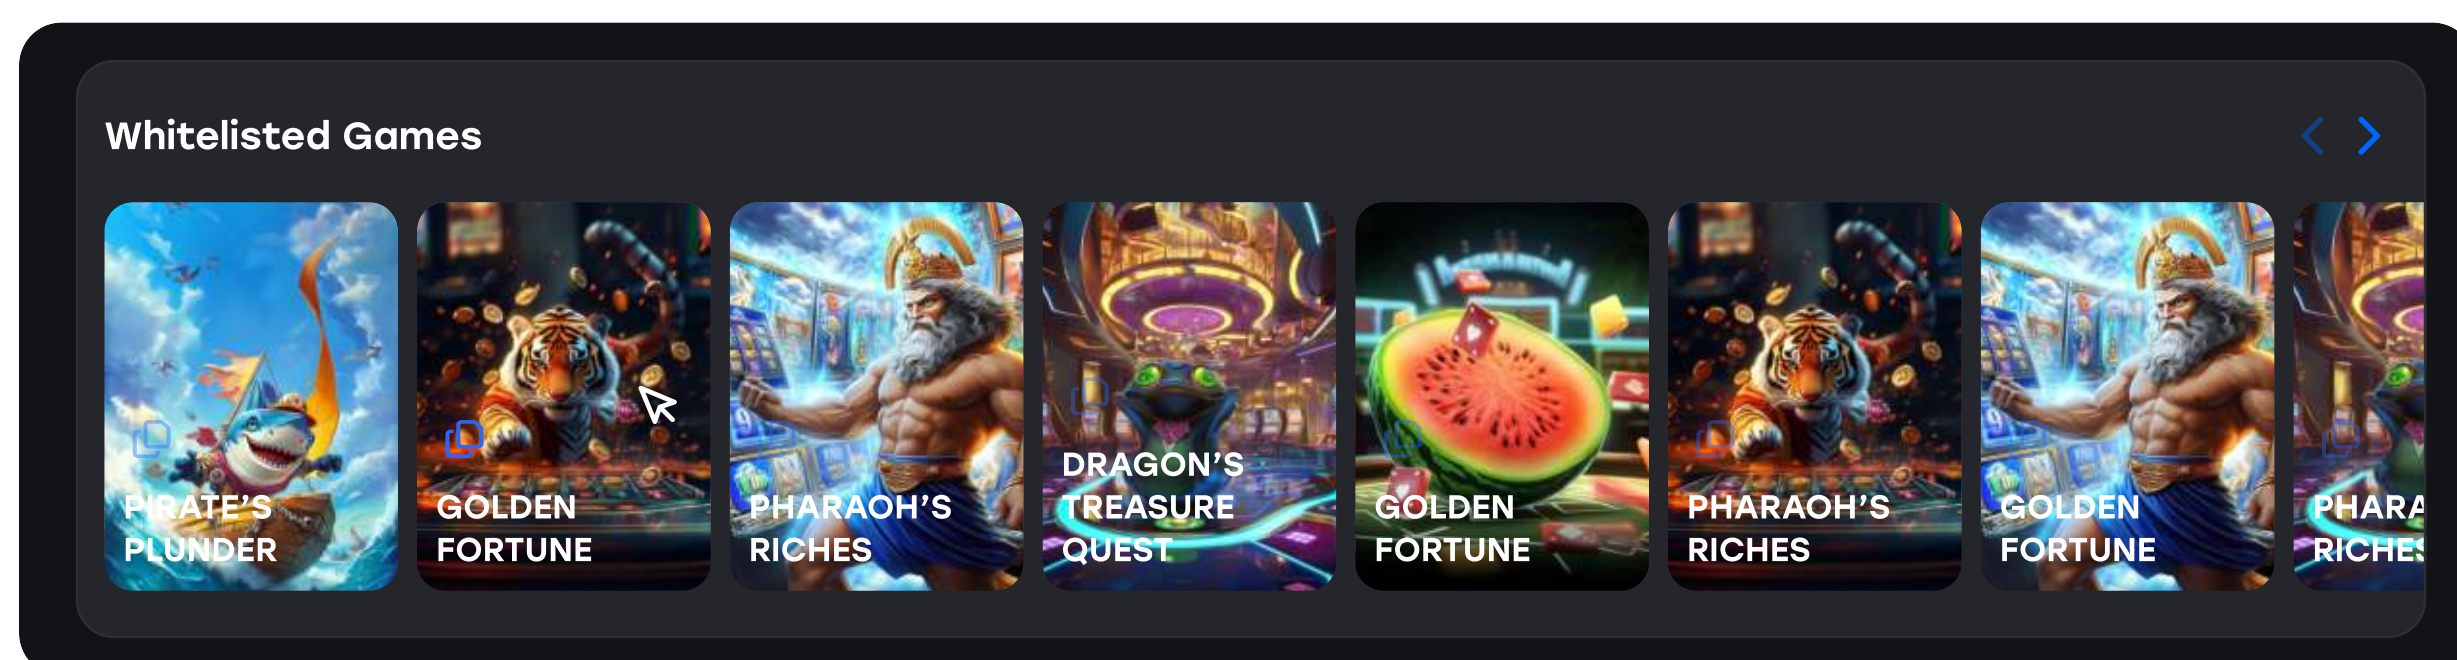

With all the steps completed, they can click **Start Stream***. Other casino members will be able to join the session and copy bets.

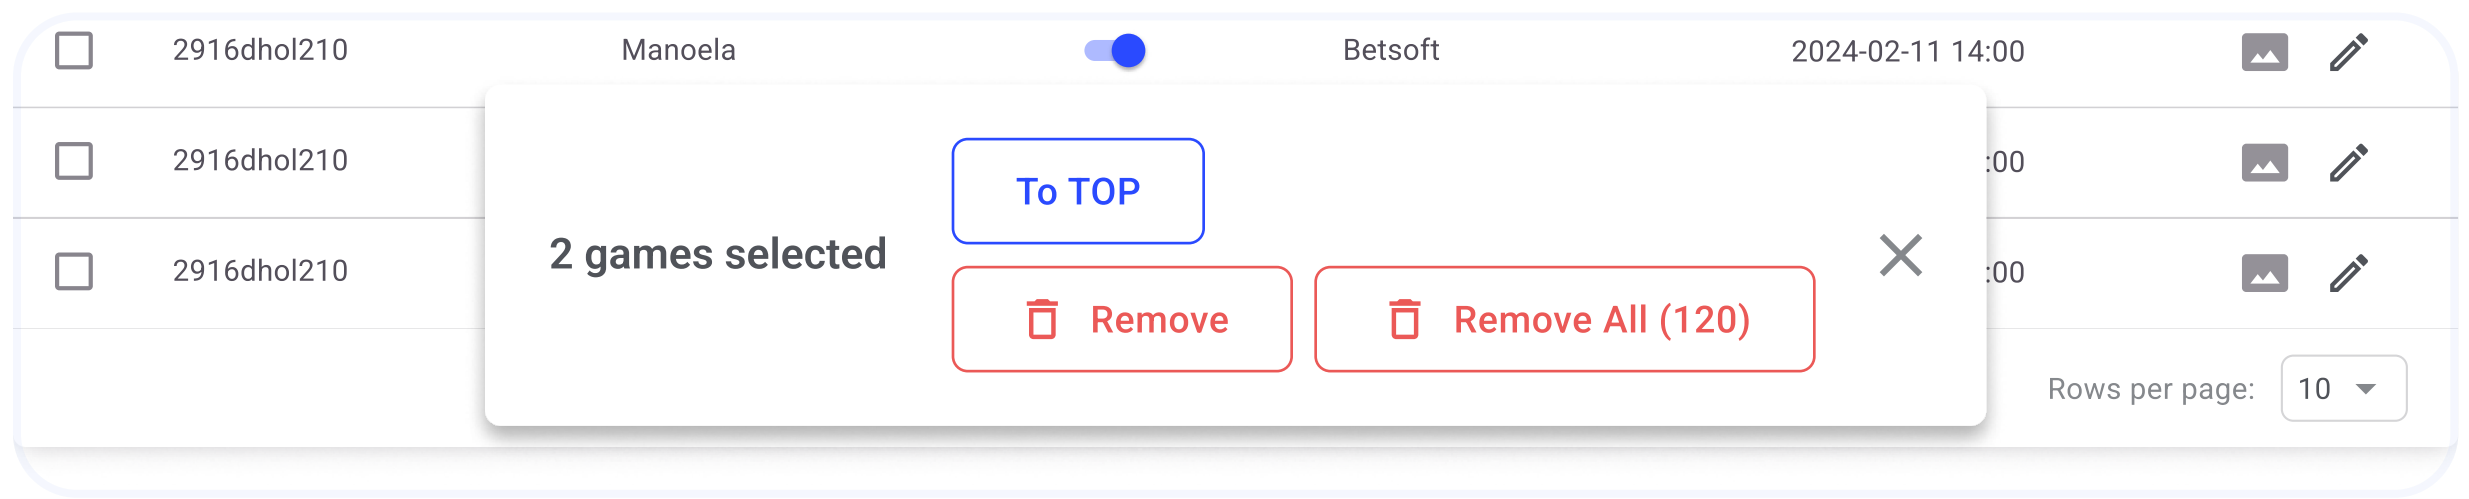

i *Once the streamer goes live, the **Start Stream** button will read **Stop Stream**.

Changing a game

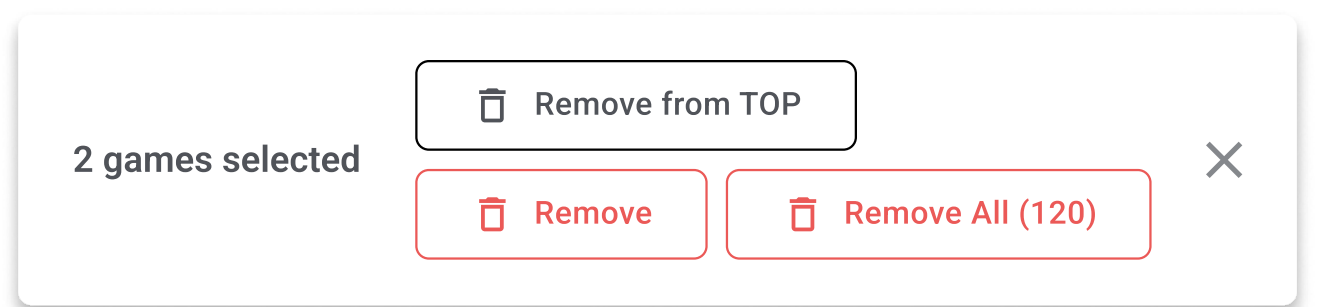

Streamers can play any of the whitelisted games gathered in the same-titled section under the video player. To change a game during a broadcast, they need to find a game in the lobby and click on it.

You can modify this list in the Admin Panel on the CopyStake [Games Whitelist](#) page. To make the game appear in this section of the CopyStake lobby, search for it by name or code, checkmark it, then turn the toggle button on or click **To TOP**.

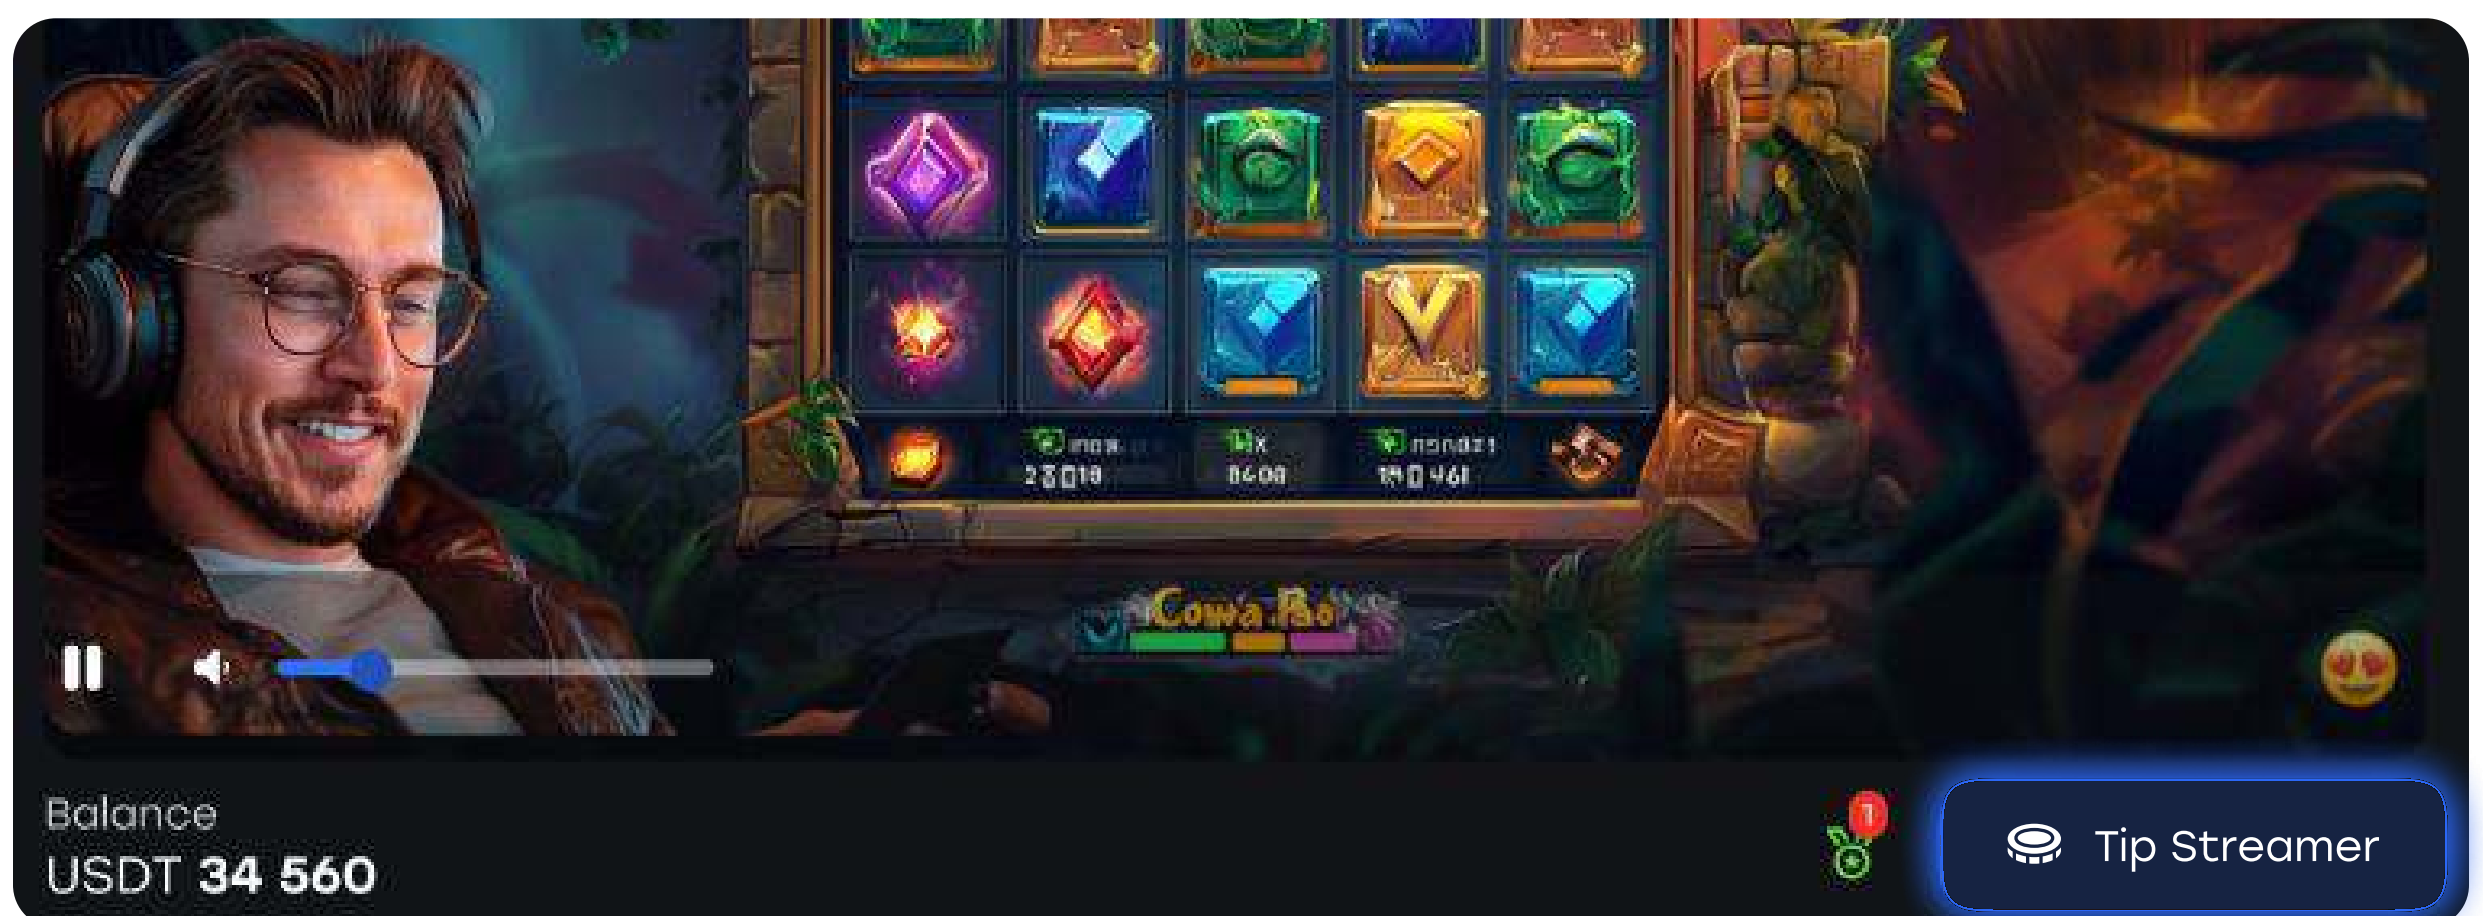

Alternatively, you can switch the toggle off and press the **Remove from TOP** button to delete the game from the listing.

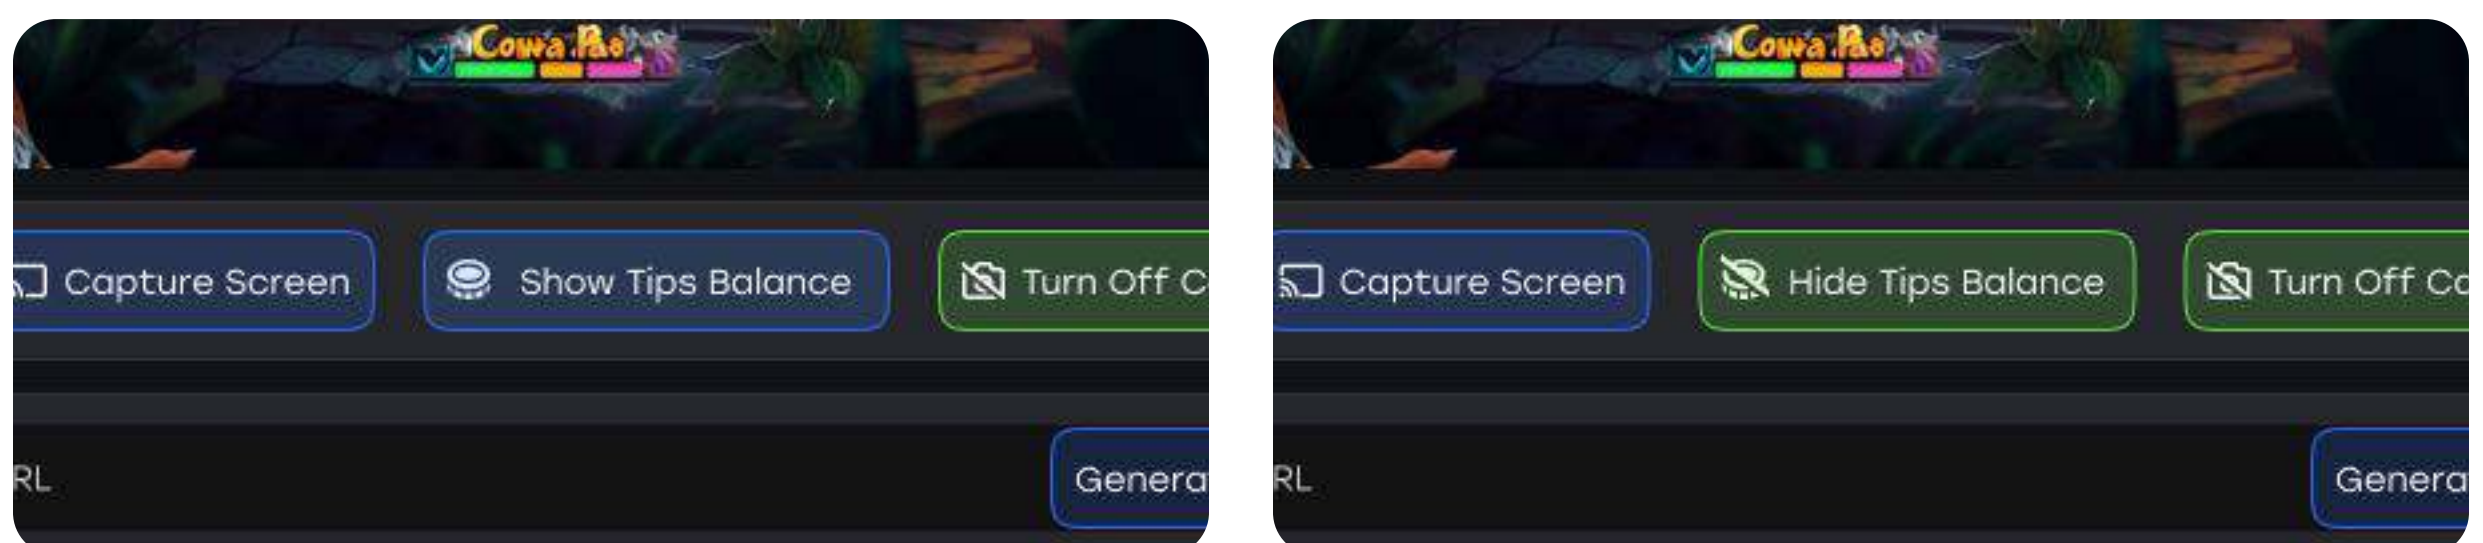

Checkmarking several games is also possible

Managing tips

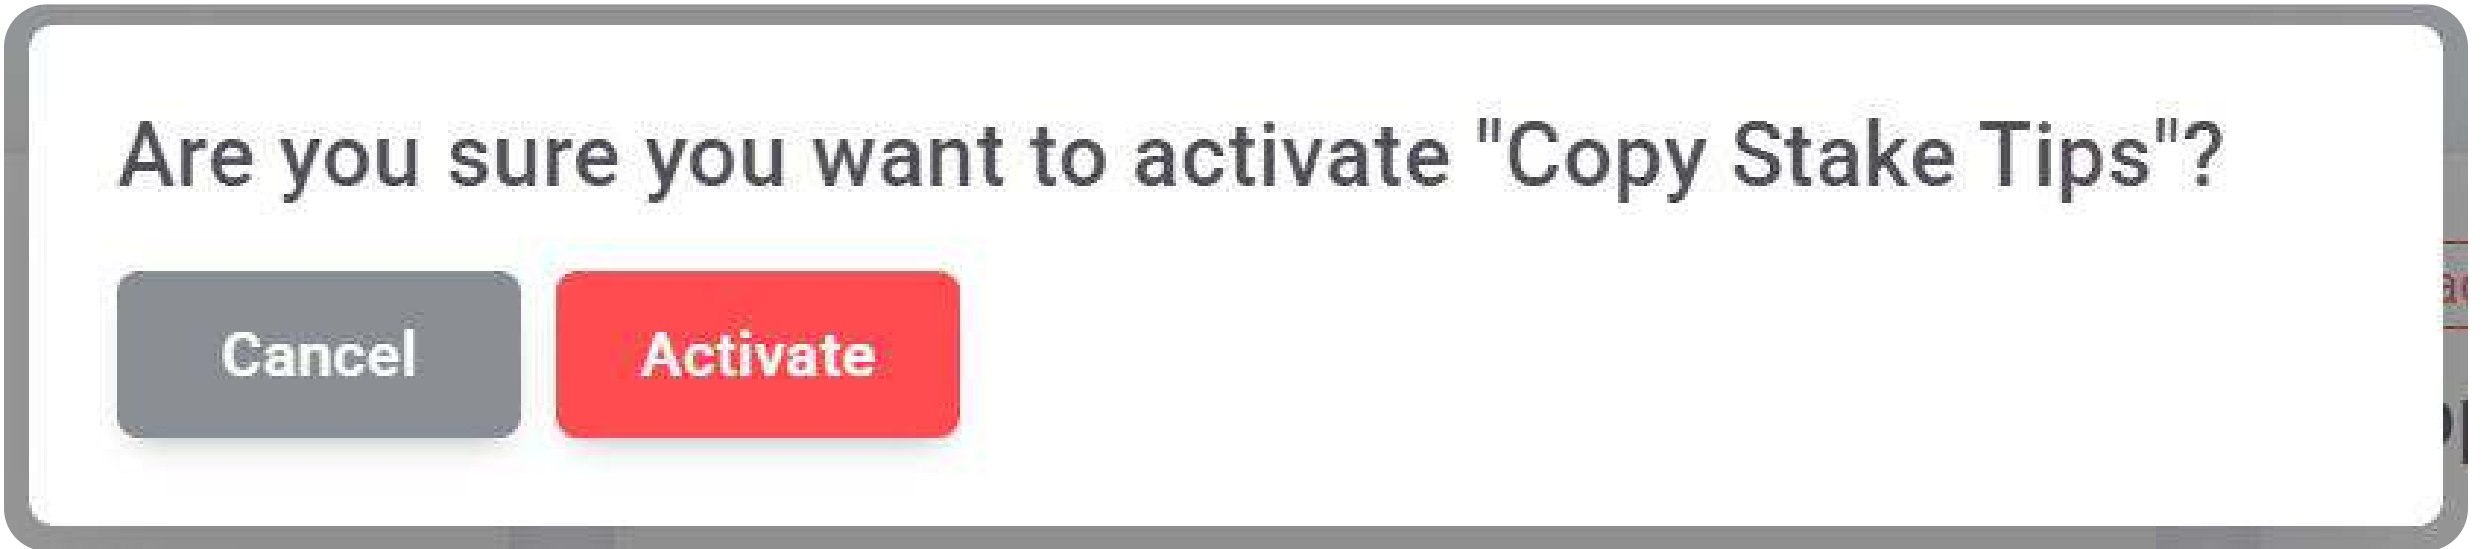

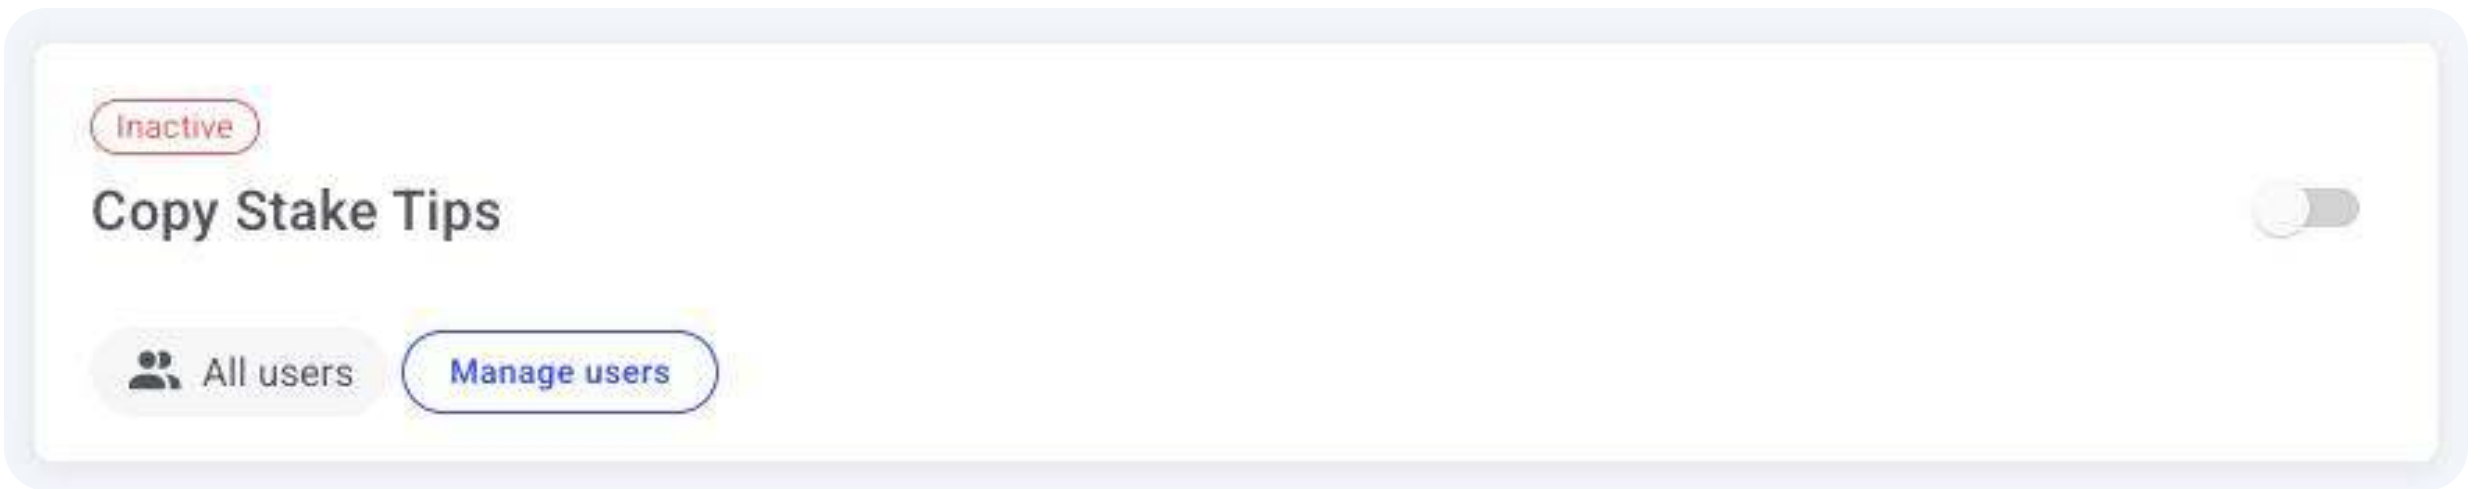

Viewers can tip streamers during a broadcast.

Streamers may make their tips visible by pressing the **Show Tips Balance** button below the video player or hidden by hitting **Hide Tips Balance**.

To turn on this feature, open the navigation bar in the top right corner. Then press Settings [Feature Management CopyStake](#), switch the toggle button on, and confirm the action.

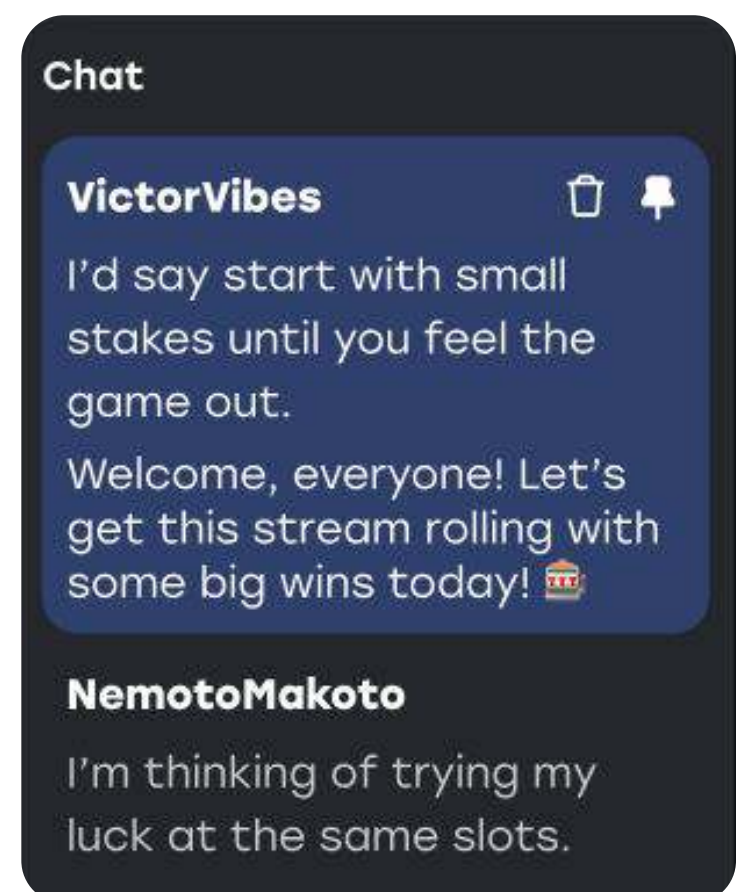

Feature deactivation implies the same sequence of steps.

Pinning chat messages

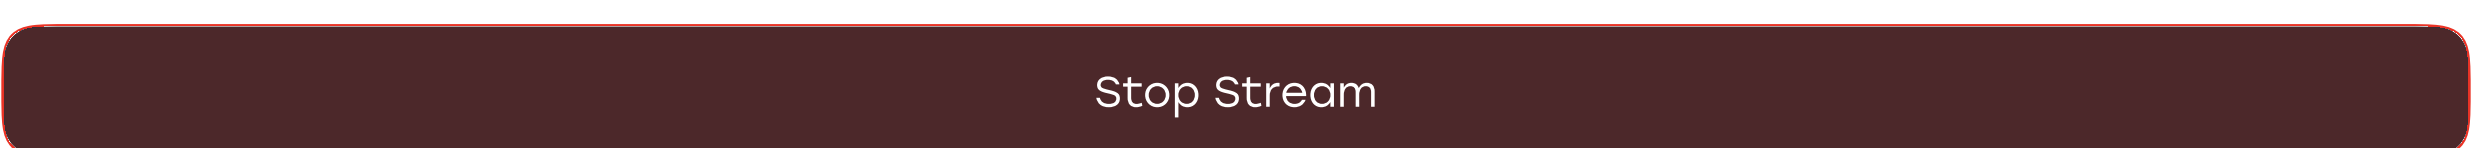

Streamers can pin their and viewer messages (up to 140 characters) if they wish to highlight that information during a session. A host who's live from a desktop needs to mouse over a message and click on the pin icon. To do the same action on a mobile device, one must tap the icon on a corresponding message.

When a streamer pins a new message, it replaces the previously pinned one.

Ending the broadcast

By hitting **Stop Stream**, the streamer will end the broadcast.

————— Streamer table in Admin Panel —————

Streamer details

In the table below, the Pending Streamers section displays basic information about your broadcast hosts. Here, you'll find the date a streamer was added to the platform, their wallet address, operator user ID, and channel ID. Additionally, you can track stats on how many streamers are live and how many players are watching them.

 134/1000 Streamers Online	 293/1000 Watchers Online	ADD STRAMER +			
DATE ADDED	WALLET ADDRESS	OPERATOR USER ID	MANAGE BROADCAST	CHANNEL ID	ACTION
02.08.2023	4de4...5f60 	4de4...5f60 	<input checked="" type="checkbox"/> Play	cn2d...b76j	 

Streamer management controls

By turning the Manage Broadcast toggle off, you will stop an ongoing stream and prohibit a streamer from starting a new one. This lets you act swiftly in case a broadcaster breaks the Terms and Conditions.

 134/1000 Streamers Online	 293/1000 Watchers Online	ADD STRAMER +			
DATE ADDED	WALLET ADDRESS	OPERATOR USER ID	MANAGE BROADCAST	CHANNEL ID	ACTION
02.08.2023	4de4...5f60 	4de4...5f60 	<input checked="" type="checkbox"/> Play	● cn2d...b76j	 
28.07.2023	4de4...5f60 	4de4...5f60 	<input checked="" type="checkbox"/> Play	● cn2d...b76j	 
25.07.2023	4de4...5f60 	4de4...5f60 	<input checked="" type="checkbox"/> Play	● cn2d...b76j	 

Click the **pencil** icon:

- upload a banner for a broadcaster's profile in desktop and mobile formats
- manage the operator user ID
- specify their channel type (private or public)
- provide an access code for streams

Pressing the **trash can** icon will remove the streamer from your platform.

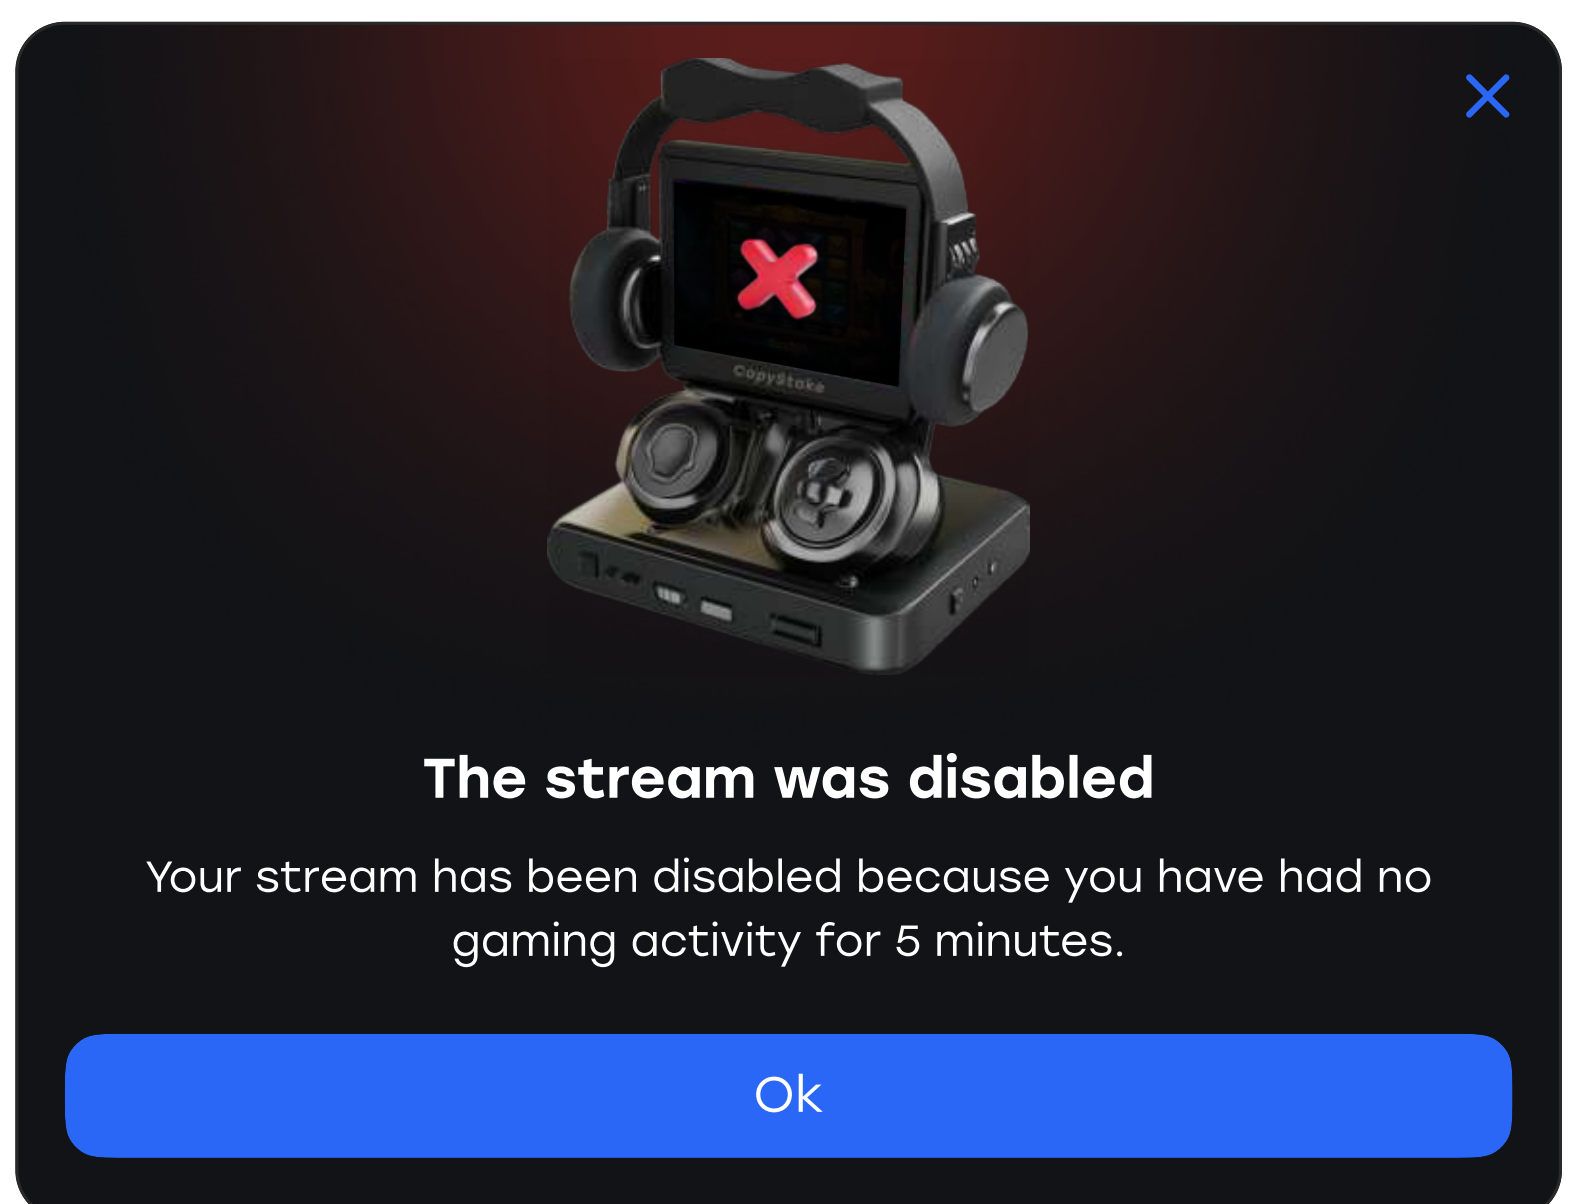

Inactivity timeout

Here, you can specify in how many minutes the broadcast will end if a streamer no longer plays a game.

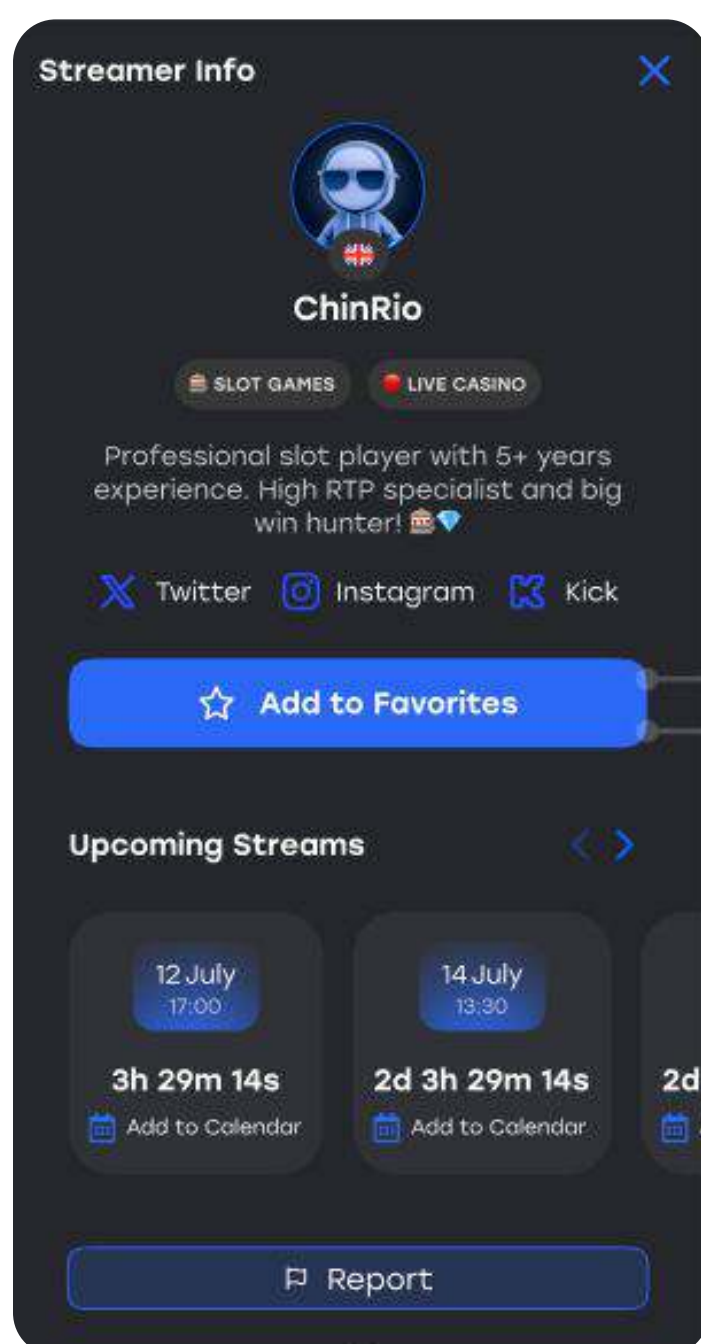

Settings

Inactivity Timeout Minutes [Save](#)

The streamer will receive a notification.

Streamer Profile Page

Players can access essential information about each streamer on a dedicated page. It contains the following information:

- Nickname
- Avatar
- Bio
- Language
- Social media pages
- Game types
- Schedule of upcoming sessions with countdown timers

To provide these details, open the Streamers tab in the CopyStake menu of the admin panel, press the **Add Streamer+** button, and fill in the form that will appear. If you need to update the information about a streamer you're currently working with, press the edit icon in the right corner of their row. The Edit Streamer form will open.

Buttons for adding entertainers to favorites* and reporting them are also located on the page.

*The **Add to Favorites** button will read **Remove from Favorites** once a user bookmarks a streamer.

We hope this guide will help you smoothly set up CopyStake and use it to your benefit. You're one step closer to disrupting the iGaming space!

If you have any questions or issues, contact Trueplay's account manager or leave a message at contact@trueplay.io.
